The ONLY 10 Station Manual Loading Machine Made in the USA

APEX10®

Comes Standard with:

- 11” High Speed Case Feeder
- Lyman Pro Hold Down Die included
- Mechanical Powder Measure
- Standard Priming with Shuttle Disk Delivery System - Small/large primer conversion included

Key Features:

- Upgradeable with Mark 7 Autodrives and sensors
- Smooth Ergonomic Ambidextrous Handle
- Fully supported Mark 7 community and technical help included
- Supports one-pass processing and loading
- Works with new & fired brass
- Precision CNC machined aluminum and steel

CALIBERS SUPPORTED NEW CALIBERS BEING ADDED EVERY YEAR!

- 9mm/.38 Super
- .40 S&W
- 38 Special /.357 Mag
- 45 ACP (Large Primer)
- 223 Rem/300
- .308 Win
- .38 Super Comp
- 380 ACP
- 10mm
- 7.62 x 39
- .44 Mag /.45 Long Colt
- 6.5 Creedmoor

Apex 10 base model . . . . . (#101-1260)

Standard features include:

- Large capacity, fast feeding case collator
- Ergonomically designed ambidextrous handle, for right or left-hand use
- 11" Case Feeder with variable speed motor
- Mechanical Powder Measure
- Shuttle Disk Stacked Priming System
- Supports one-pass rifle/pistol processing and loading
- Works with new AND fired brass
- Precision CNC machined aluminum and steel
- Upgradeable with Mark 7 Autodrives and sensors
- Fully supported Mark 7 community and technical help included
- Double Guide Rod support for the tool head for more stability
- A large assortment of accessories, upgrades and sensors are available.

Upgradeability

The Apex10 can easily be upgraded with the following options at any point:

- Autodrive
- Primer Express – Electronic Oscillating Primer System
- Digital Powder Measure (only with Autodrive)
- Digital Sensors (only with Autodrive)
- Machine caliber conversion kits that include everything required to convert the press from one caliber to another
- Trimmer kit for rifle processing

PLEASE NOTE: Hold Down Die is included, but additional dies and bullet feeder are not included with the Apex10 and must be purchased separately.

A Station for Every Step:

A massive, robust 10-station cast iron tool head allows you to "have it all":

Station 1: Case feeding
Station 2: Sizing and decapping
Station 3: Swage/Case trim
Station 4: Primer seat with hold down
Station 5: Case flare/neck expansion
Station 6: Powder drop
Station 7: Powder check
Station 8: Bullet Dropper
Station 9: Seating
Station 10: Crimping

The above is just one possible set-up. The 10 station tool head offers a large variety of options for all your reloading and case processing needs.

Dimensions

Press core dimensions: 18" tall x 15" wide x 11" deep (45.7cm x 38.1cm x 27.9cm) Machine weight: 60lbs (15.9kg)

Mark 7 Autodrives - Automate Your Press

Tired of pulling on the handle of your press over and over and over? The Mark 7 Autodrive will fully automate your Dillon 650, 750, 1050, 1100, CP200 and Mark 7 Evolution manual presses for speed, efficiency and performance. The Autodrive is packed with features that make it the most advanced system ever designed. The patented digital drive system is computer operated allowing you to fully control the speed, torque, and dwell of the press with a simple to use high definition tablet. This is a true "plug and play" system that makes it easy to mount and set-up on your press. The included TorqueSense and JamSense sensors protect the press and system if anything gets out of place. The Autodrive controller can also accept additional sensor options for the ultimate level of protection. Autodrives come with their own rugged base and a drilled and tapped press mounting plate. The high torque motor and precision machined components combine for super smooth operation.

- Microprocessor controlled
- Includes 10" HD tablet
- Adjustable speed settings from 900 to 3500 rounds/hour (Note speeds can vary based on machine settings)
- Adjustable digital clutch
- Digitally controlled jog and stop functions
- High torque motor with super smooth belt driven operation
- Includes TorqueSense and JamSense
- Fits Mark 7 manual Evolution or Apex•10 press – press not included

Mark 7 Sensors
Digital Sensors for Autodrives

The ability to use a variety of sensors separates the Mark 7 system from the competition. Whether it is ensuring that the spent primer is removed, checking for a correct (or no) powder charge, ensuring that a bullet is present and positioned correctly, or that you are low on primers; we have you covered with the right sensor.

Optical DecapSense™

*Optical sensor that stops the machine and alerts you when a decapped primer is not present. *Included with all 650/750 Autodrives*

Dillon 1050Super/RL1100 . . . . . (#101-1011-01)
Dillon 1050 RL. . . . . (#101-1011-02)
Dillon 650/750* . . . . . (#101-1011-03)
Apex 10/Evolution/Revolution . . . . . (#101-1036)

PowderCheck

Automatically stops the machine if an incorrect powder level is detected inside the case.

Powder Check . . . . . (#101-1038)

BulletSense®

The digital bullet orientation sensor stops the machine instantly if a vertical bullet is not present.

For Dillon 1050/RL 1100 . . . . . (#101-1082)
For Dillon 650 . . . . . (#101-1083)
Apex 10/Evolution/Revolution . . . . . (#101-1059)

Wired Remote Stop Assembly

Machine can stop instantly when the button is pressed.

Remote Stop . . . . . (#101-1016)

SwageSense™

The first ever electronic sensor system that can stop the machine when unexpected primer pocket obstructions are sensed. (Not compatible with Dillon 650/750)

For Dillon 1050 . . . . . (#101-1015)
For RL 1100 . . . . . (#101-1024)
Apex 10/Evolution/Rev. . . . . (#101-1031)

Primer Orientation Sensor

Stops your press in the event of a primer that is missing, upside down, misaligned, or not set deep enough.

Apex 10/Evolution/Rev. . . . . (#101-1040)

PrimerSense®

Proprietary digital sensing mechanism that stops the machine when the primer supply is low.

Dillon 650/750/1050 Only . . . . . (#101-1009)

Brass Smith® All-American 8 Turret Press

The eight station Brass Smith® All-American 8 Press is the most feature-packed, rugged turret press on the market! Starting at the top, the extra-large 8 station turret is machined out of heavy duty cast iron. It is equipped with an easily removed turret bolt which makes swapping turrets simple. The 8 die station turret is the largest available and will hold two complete 4 die sets or up to four 2 die sets. Below the turret is a rigid cast iron frame, housing a 1" diameter ram and compound linkage. The frame is large enough to work with even the longest rifle cartridges. Work the press handle and you will feel the tight, precision fit and smooth operation. Unlike many competitive presses, the Brass Smith® All-American 8 Press comes with a straight line primer feed that is extremely reliable and simple to use. Simply push the priming arm forward at the bottom of the ram travel to position it beneath the shell holder. For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes. The Brass Smith® All-American 8 Press is equipped with a comfortable ball handle which can be positioned for either right or left hand use. The Brass Smith® All-American 8 Press is designed for use with any standard 7/8"x14 thread dies and accepts standard shell holders.

- **Heavy duty cast iron frame and turret**
- **Extra-large 8 station turret is easily removed to make swapping turrets simple.**
- **Holds two complete 4 die sets or up to four 2 die sets**
- **1" diameter ram**
- **Comes with straight line primer feed w/ large & small primer tubes**
- **Precision fit and smooth operation**
- **Large press opening, works with the largest cases**
- **For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes.**
- **Right or left hand operation**
- **Durable powder coat finish**
- **Weight 23 pounds**
- **4.5" Frame Opening**

Buy Press & Stand Together & Save!

Press + Stand Kits

Get both the Lyman Brass Smith press you want AND the Lyman Universal Press Stand to mount it on your bench and save money over buying the two items separately!

Brass Smith Ideal Press + Universal Press Stand . . . . . (#7810352)

Brass Smith Victory Press + Universal Press Stand . . . . . (#7810362)

Brass Smith All-American 8 Press + Universal Press Stand . . . . . (#7810372)

Brass Smith® Ideal Press

Lyman's Brass Smith® Ideal Press is the perfect starting point for beginners or as a precision companion press for experienced reloaders. The compact design of the Ideal Press requires minimal bench space, but it is not some flimsy lightweight! The rugged press frame is made of cast iron, while other components are all steel. The press features compound linkage for optimum leverage, a 1" diameter ram, and a 3 7/8" press opening which can handle all pistol calibers and rifle cartridges with a loaded length of up to 3.700". The press has a central handle position for easy ambidextrous use and a ball handle for comfortable operation. The Ideal Press accepts all 7/8x14 thread dies and standard shell holders. The press will provide accuracy and precision for beginners or experts, and is the perfect auxiliary press for those wishing to perform a specific operation separate from their main press.

- **Rugged cast iron frame**
- **Ambidextrous design**
- **Handles all pistol calibers and rifle cartridges up to 3.700 in length**
- **Accepts all standard 7/8"x14 dies and standard shell holders**
- **Durable powder coat finish**
- **Compound linkage and 1" diameter ram**
- **Weight 12.6 pounds**

Brass Smith® Ideal Press . . . . . .(#7726500)

Brass Smith® Victory Press

The Lyman Brass Smith® Victory Press is the workhorse of our line. You cannot find a more sturdy, rugged, and rigid single station press available. We started with a heavy duty cast iron "O" frame, and added a 1" diameter ram, and compound linkage. Work the press handle and you will feel the tight, precision fit and smooth operation. Unlike many competitive presses, the Victory Press comes with a straight line primer feed that is extremely reliable and simple to use. Simply push the priming arm forward at the bottom of the ram travel to position it beneath the shell holder. For added safety, the primer feed comes with a heavy steel shield which surrounds the primer tubes. The large 5" frame opening makes even the largest magnum calibers easy to load. The Victory Press is equipped with a comfortable ball handle which can be positioned for either right or left hand use. The Victory Press is designed for use with any standard 7/8"x14 thread dies and accepts standard shell holders.

- **Heavy duty cast iron "O" frame**
- **1" diameter ram**
- **Comes with straight line primer feed with large and small primer tubes**
- **Precision fit and smooth operation**
- **Large 5" frame opening, works with the largest cases**
- **Primer feed includes heavy steel shield which surrounds the primer tubes for added safety.**
- **Right or left hand operation**
- **Durable powder coat finish**
- **Weight 18.1 pounds**

Brass Smith® Victory Press . . . . . .(#7726350)

Lyman Universal Press Stand

The Lyman Universal Press Stand is the only press stand on the market that will accept most current single station, turret, and progressive presses of all brands. This heavy duty steel stand comes with two mounting plates pre-drilled for your favorite single station, turret, or progressive press. If by chance you have a press that does not match up with any of the numerous patterns, there is also a blank area where you can drill your own mounting holes. The stand will raise your press 9 ¼" above your bench surface, which will lessen fatigue from having to bend over to cycle your press and provides a clear view of all reloading operations. All hardware needed to mount your press is included. The Universal Press Stand is drilled to allow it to be bolted to your bench, or it can be C-clamped to provide quick removal if desired.

- **All steel, heavy duty construction**
- **Accepts most single station, turret, and progressive presses**
- **Blank area allows custom drilling**
- **Raises your press 9 ¼" for a clear view of reloading operations**
- **Reduces fatigue**
- **Press mounting hardware is included**
- **Fits the following presses and more:**

Lyman - Crusher, T-Mag, Ideal C-Frame, Victory, All-American 8 Turret,
RCBS - Rock Chucker, Rock Chucker Supreme, RCBS Turret, Pro 2000,
Hornady - AP, Iron, Lock-N-Load Classic,
Redding - T7, Lee - Load Master, Pro 1000, Classic, Value Turret,
Dillon - Square Deal, 550, 650

Brass Smith® All-American 8 Reloading Kit

Lyman is proud to have over 145 years of reloading expertise that has helped us produce products like our All-American 8 Press. This turret press is the most feature-packed, rugged press on the market, and is the heart of the All-American 8 Reloading Kit. The heavy duty press is large enough to handle the biggest rifle cartridges, yet offers speed and precision for pistol shooters. Along with the smooth operating 8-station turret capable of holding up to 4 two die sets, the press is equipped with a straight line Auto Primer Feed. To make this the most complete kit that you can find, we include our Brass Smith® Powder Measure, our Universal Trimmer with 9 of the most popular caliber pilots, our 1500 grain capacity Pocket Touch Digital scale, the famous 51st Edition Reloading Handbook, our Magnum Bullet Puller, Case Prep Multi-Tool, loading block Case Lube Kit and Powder Dribbler.

All-American 8 Reloading Kit includes:

- **Brass Smith® All-American 8 Press**
- **Brass Smith® Powder Measure**
- **51st Edition Reloading Handbook**
- **Pocket Touch 1500 electronic scale with Funnel Pan and Dipper**
- **Universal Trimmer with pilot multi-pack**
- **Case Prep Multi-Tool**
- **Magnum Bullet Puller**
- **Case Lube Kit**
- **Loading Block**
- **Powder Dribbler**
- **E-ZEE Powder Funnel**
- **Primer Tray**

AR Reloading Handbook - 2nd Edition

The first reloading handbook dedicated exclusively to the most popular semi-auto rifle in the United States has now been updated to include new calibers and data. The 2nd Edition of this comprehensive Lyman handbook provides the AR shooter with reloading data for nearly all AR based calibers. Reloaders will appreciate the extensive pressure tested data that encompasses all popular brands of bullets and powders. The 2nd Edition contains new calibers such as the 224 Valkyrie, 22 Nosler, 24 Nosler, 350 Legend, as well as sub-sonic data. In addition, articles by well-known authorities covering topics such as "Building An AR", and "AR15 Gas System Lengths" are included.

AR Reloading Handbook 2nd Ed. . . . . .(#9816046)

Long Range Precision Rifle Handbook

One of the fastest growing shooting sports in the country is precision long range rifle shooting. The Precision Rifle Series and Extended Long Range matches are being held all over the country and industry leaders are producing numerous rifles, scopes, bi-pods, and other accessories for this exciting sport. One area that has been lacking however is reliable reloading data, until now!

- **Specific data for precision long range cartridges including: 223 Rem., 6mm Dasher, 6x47 Lapua, 6XC, 6mm Creedmoor, 243 Win., 6.5x47 Lapua, 6.5 Creedmoor, 260 Rem., 6.5-284 Norma, 308 Win., 300 Win Mag, 300 Norma Mag and 338 Lapua.**
- **Target bullets from Berger, Lapua, Sierra & Hornady**
- **Includes pressure and velocity data**
- **Articles by top PRS shooters and industry experts**
- **Printed in full color format**

Long Range Handbook . . . . . .(#9816060)

Cast Bullet Handbook, 4th Edition

The first new cast bullet data manual in 30 years contains data using the latest and most available components for bullet casters. In addition to data for Lyman's entire line of rifle and pistol moulds, the Cast Bullet Handbook includes data for selected moulds from other manufacturers. Like Lyman's other popular handbooks, this large edition covers valuable "how-to" editorial as well as important articles by acknowledged authorities in the field.

Cast Bullet Handbook . . . . . .(#9817004)

The Lyman Shotshell Handbook, 5th Ed.

This is the most complete and up-to-date shotshell reloading manual available. It covers cases, wads, and primers currently offered by all leading manufacturers in all gauges from .410 to 10 gauge. Non-Toxic Data Section covers steel, bismuth and Hevi-Shot, plus complete how-to load instruction. Slug and Buckshot Loads are covered too, plus a how-to-load section.

Shotshell Reloading Handbook . . . . . .(#9827111)

Lyman Black Powder Handbook, 2nd Ed.

Edited by Sam Fadala, this is the most comprehensive black powder manual available. It includes thousands of pressure tested loads, along with a large assortment of round balls, conicals and sabots. Down range velocities and energies are also given for each load. Topics also covered include: choosing your muzzleloader, building the best loads, propellants, ignition, maintenance and black powder cartridges. There are also hundreds of pressure tested black powder cartridge loads for larger calibers.

Black Powder Handbook . . . . . .(#9827100)

Lyman Pistol & Revolver Handbook, 3rd Ed.

The most complete handgun reloading data, encompassing all major brands of bullets, powders and primers. More than just data charts, this handbook also contains a number of captivating feature articles by well-known writers covering such popular subjects as: Cowboy Action shooting, loading for big bore revolvers and handgun varmint hunting.

Lyman Reloading Data Log

The Lyman Reloading Data Log is a must for shooters who reload. The large, easy-to-use format has plenty of room to enter all important data such as bullet, powder, primer, case, firearm used, plus size, velocity, conditions and several lines for comments on your reloads. Large 8 1⁄2" x 11" size. 50 pages per log.

Lyman® STAINLESS STEEL Pro Dies

CUSTOM DESIGNED FOR MARK 7 AND OTHER PROGRESSIVE LOADING PLATFORMS

Lyman Pro Trim Dies

Lyman Pro Trim Dies are made in the USA to Lyman's highest quality standards. Made from stainless steel for a lifetime of use. Pro Trim Dies are threaded on the bottom in 7/8-14 to fit all Lyman, Mark 7, and all other reloading presses on the market. The top thread is 13/16-20 for use with Lyman's press mounted trimmer or many of the other popular press mounted trimmers on the market.

Lyman Pro Case Flare Dies

Our case flare dies are especially designed for use with progressive and automated reloading presses. The long tapered expanding plug allows you to adjust for just the right amount of case flair to properly position a bullet for seating. Our Case Flare Die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Universal Spring Loaded Decapping Die

Lyman's Universal Spring Loaded Decap Die is equipped with a spring-loaded decapping rod system that ensures the primer is forcefully ejected from the primer pocket every time. This die works great for processing brass on automated and progressive presses, as well as for prepping brass for cleaning on standard turret and single station presses. Works on all calibers 22 through 45 except for 378 and 460 Weatherby. (Will not remove Berdan primers.)

Stainless Pro Carbide Sizing Dies

Tungsten carbide sizing dies were pioneered by Lyman, now we've made them even better. Our Pro Carbide Die bodies are made of stainless steel which is noted for its toughness and anti-corrosion qualities. No more rusted dies! Our sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. The carbide rings have a generous radius on the mouth to allow cases to easily align on progressive presses. Rifle dies also include our super slick carbide expander buttons to reduce case stretch. In addition, the sizing dies are equipped with a spring-loaded decapping rod system to ensure that the primer is forcefully ejected from the primer pocket every time.

Lyman Pro Series Micrometer Taper Crimp Dies

Our Micrometer Taper Crimp Die gives you exact the amount of crimp that you want. The Taper Crimp Die has a micrometer adjustable head for precise positioning of the floating crimp sleeve. If you want to change your bullet crimp a few thousandths of an inch, simply turn the micrometer head to the required setting. The floating crimp sleeve centers the cartridge and applies a perfect taper crimp. Our Micrometer Taper Crimp Die is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Universal Hold-Down Die

The Universal Hold-Down Die is designed for use on Mark 7 and other progressive presses which swage primer pockets. The die is equipped with a sturdy rod which is designed to reach down inside the case and hold the case firmly in position as the swaging operation takes place. This prevents cases from being torn out of the shell plate damaging it and the brass. Two rods are included to cover the full range of rifle and pistol cases. The die body is also made of corrosion resistant stainless steel which protects it from rust and keeps it looking like new for a lifetime of use.

Two-Step Neck-Expanding (M) Pro Dies

Lyman Pro Neck-Expanding "M" Die uses the same famous two-step expanding plus as standard Lyman "M" dies but all other components are made from tough, anti-corrosive stainless steel. The two-step expander provides the proper neck tension as well as slightly opening the case mouth to allow the bullet to just start into the case. This keeps the bullet in place as it is cycled to the bullet seating station. It also allows the bullet to seat smoothly into the case with no shaving or scoring.

Lyman Pro CARBIDE Taper Crimp Insert

Lyman Carbide Taper Crimp Die Inserts for Lyman Pro Dies in 9mm and 223. Replacing the original hardened steel insert with carbide provides many benefits including less noise, longer life and more consistent crimping. For use with all case types, but performs exceptionally well with harder material cases such as Shell Shock NAS3 cases.

Note: Requires Lyman Pro Series Micrometer Taper Crimp Die. Die not included. Does not work on any other die.

ALL LYMAN DIES ARE PROUDLY MADE IN THE USA

Lyman Pro Die Packs

Lyman Pro Dies set a new standard for reloading die performance! Designed for the tremendous volume of our Mark 7 presses, every aspect of these precision dies was carefully engineered for top performance. Of course, they work great in regular progressive presses as well as turret and single station presses. Our first consideration was the material of the dies. Our size, seat and crimp dies are all made of stainless steel which was chosen for its toughness and anti-corrosion qualities. No more rusted dies! Our sizing dies are equipped with highly polished carbide rings for the ultimate in wear resistance and reduced sizing force. In addition, the sizing dies are equipped with a spring-loaded decapping rod system to ensure that the primer is forcefully ejected from the primer pocket. Our rifle sets get our famous M die neck expander, with its famous two step expander plug for just the right amount of neck tension and case mouth flare. The pistol sets include our flare die which are designed to allow bullets to properly sit on the case mouth prior to seating. Next is our Micrometer Seating die. This seating die has a micrometer adjustable seating head for precision bullet seating length. Its floating bullet seating punch centers the bullet on the case and eliminates excessive run-out. Finally, each set is equipped with a taper crimp die to fully remove any case mouth flare and to provide improved bullet retention. Lyman Pro dies offer more features at a better price than any competitive dies available!

Deluxe 3-Die Rifle Sets

Lyman's Deluxe 3-Die Rifle Sets give reloaders all the options they need to enhance the accuracy of their reloads and extend the life of their brass. By adding both a premium Carbide Expander Assembly and a Neck Sizing Die, Lyman has created two die sets in one. Neck sizing eliminates over-working the brass, dramatically extending case life.

The set includes:

- **Deluxe Carbide Expander Assembly**, *with a free floating carbide sizing button, which smooths neck expansion by moving the button up the decapping rod to better use the press' leverage. It eliminates the need for inside neck lube.*
- **Neck Sizing Die** *which allows the case to retain the precise chamber dimensions of the individual rifle while avoiding excessive working of the brass.*
- **Standard Full Length Sizing Die** *for taking brass down to factory Dimensions.*
- **Standard Bullet Seating Die**

Deluxe Carbide Expander/Decap Die Rod Complete

The Lyman Deluxe Carbide expander and decapping rod assembly features a super hard and slick carbide expander button with an adjustable positioning sleeve. The carbide button will offer easier extraction through case necks, which will help prevent case stretching and lessen case trimming. This will provide greater case life. The carbide button also floats free on the rod to allow for self-centering in the case neck. The button can be adjusted into two positions on the rod. This will allow it to be positioned for various cases of given calibers. It will also allow the user to adjust when the button pulls through the case neck so the press linkage can be positioned for better leverage. ***Includes adapter for use with RCBS dies (#7126015).***

- **Super hard and slick carbide expander button**
- **Fits all Lyman rifle sizing dies**
- **Carbide button can be adjusted for height**
- **Carbide free floats on the rod for self-centering in case necks**
- **Replaceable decapping pin**

Already have a full length die set?

The Deluxe Carbide Neck Size Die is available separately so you can upgrade your current dies for maximum accuracy potential. The Deluxe Carbide Expand and Decap Rod assembly can also be purchased individually to fit both Lyman and RCBS Rifle sizing dies.

Deluxe Neck Size Dies with Carbide Expander Button

Lyman's Neck Size Die with carbide expander button enhances the value of any manufacturer's standard die set and eliminates the need to full-length resize and overwork the brass. It will also provide better accuracy - ask any target shooter! Use the full length sizing only when you need to.

The Lyman Deluxe Neck Sizing Die features a precision machined and hardened die body along with a super hard and slick carbide expander button. The expander button also free floats on the rod to allow it to self-center in the case neck and the slick button easily passes through the case neck. The result is a die that will reduce case stretching, increase case life and provide enhanced accuracy for the reloader.

Black Powder Neck Size Dies

Classic rifle shooters rely on Lyman's neck size dies to retain the fireformed case dimensions. By not overworking the brass, these dies produce superior accuracy and extend the life of expensive shells. These neck size dies are available in the following sizes:

45 Cal. Short (45-70, 45-90, 45-100) . .(#7135057)

Black Powder Taper Crimp Dies

BP cartridges require compression for proper ignition. This requires firm neck tension to hold the bullet without damage. The Taper Crimp Dies have a minimum taper that allows the reloader to apply the proper neck tension without damaging the bullet for best accuracy.

45 Cal. Short (45-70, 45-90, 45-100) . .(#7153124)

Deluxe Neck Size Dies with Carbide Expander Button

The Lyman Deluxe Neck Sizing Die features a precision machined and hardened die body along with a super hard and slick carbide expander button. The expander button also free floats on the rod to allow it to self-center in the case neck and the slick button easily passes through the case neck. The result is a die that will reduce case stretching, increase case life and provide enhanced accuracy for the reloader. *(see page 12)*

Taper Crimp Die

A Taper Crimp dies apply the proper taper crimp to pistol cases. Essential for proper function in auto pistols. Unlike some other die manufacturers, we feel that taper crimping is best done in a single purpose die station. Just add the taper crimp die to your current die set for a complete progressive reloading die set.

Each Taper Crimp die is heat treated to an RC50 minimum surface hardness. The interior is hand polished before and after heat treat to an 8 rms finish. *(see pg 14)*

Multi-Expand Charge Die System

Designed to save the pistol reloader time. The hollow expanders allow you to expand the case and drop powder at the same time with your powder measure mounted on top. Fits all standard powder measures.

Includes expander body, hollow expanders for .32, 9mm, 38/.357, 10mm/40 S&W, .41, .44 and .45 plus a non-expanding universal powder drop tube.

Multi-Expand . . . . . .(#7767901)

Universal Decapping Die

The ideal die for decapping primers prior to case cleaning. **It has a unique one piece hardened steel decapping rod.** *Perfect for military crimped in primers. Works on all calibers .22 thru .45 except .378 and .460 Weatherby. (Will not remove Berdan primers)*

If you use a vibratory tumbler or sonic cleaner, this die provides the necessary first-step.

Decapping Die . . . . . .(#7631290)
Replacement Decapping Rod . . . . . .(#7990528)

The first step before ultrasonic cleaning.

Ram Prime Die System

Designed for sensitive one-at-a-time primer seating on top of a press. Works with all 7/8" x 14 threaded presses. Includes large and small primer punches.

Ram Prime . . . . . .(#7728040)

Tungsten Carbide Die

Pioneered by Lyman, these premium dies use a diamond hard, tungsten carbide ring to size straight walled cases. The T-C ring is so hard that clean cases can be smoothly sized without case lube. A real time saver.

Neck Size Die

A Neck Size Die allows the reloader to properly size the case neck for optional bullet tension, while maintaining the fireformed dimension of the case body. Accuracy is increased when the case body closely fits into the chamber. The Neck Size Die includes a decapping rod and steel expander button.

A Lyman® Original

The Two-Step Neck-Expanding (M) Die

Improves accuracy of cast and jacketed bullet reloads. Doesn't stretch cases as does standard expander button. Extends case life. A "Must-Have" die for the cast or flat-base bullet user.

Many reloaders consider Lyman's Neck Expanding (M) Die a valuable tool for improving the accuracy of their reloads. The die's expander plug has two steps. (See illustration)

(See charts pg. 14-15)

1) The first step expands the inside of the case neck to just under bullet diameter for precise case neck tension in the finished reload. (See Illus. A.)

2) The second step expands the case mouth to bullet diameter or slightly over. This allows the jacketed or cast bullet to be started perfectly centered in the case mouth and properly aligned with the axis of the case neck. (See Illus. B.)

NOTE: By adjusting the neck expanding plug slightly deeper, Step 2 also provides a slight flaring of the case mouth for reloaders using cast bullets. (See Illus. C.)

Lyman® Precision Die Sets

Reloaders want volumes of reloads which deliver consistent quality. When it comes to precision, smoothness and versatility, Lyman Precision Dies are unsurpassed. Each sizing die is vented, polished, heat treated for toughness and receives a final micro-finish polish for extra smoothness. Lyman pistol die sets feature only solid, premium Tungsten Carbide sizing rings. They also include a one piece solid decapping rod made from hardened, heat treated tool steel that will not crack, even when depriming cases with crimped primer pockets.

Remember, Lyman dies fit all popular presses using industry standard 7/8" x 14 threads, including RCBS, Lee, Hornady, Dillon, Redding and others. Whether 2-, 3- or 4-die sets, these dies deliver round after round of the high performance ammo serious shooters demand.

3-Die Carbide Pistol Die Sets

Lyman was the originator of the Tungsten Carbide (T-C) sizing die and "Multi" concept with the addition of extra seating screws for pistol die sets. Combined with another Lyman original - the two step neck expanding die, our Multi-Deluxe Die Sets offer these features: a one piece hardened steel decapping rod and extra seating screws for all popular bullet nose shapes, and all steel construction.

Premium Carbide 4-Die Sets

In addition to all the features of our three die sets, the Premium Carbide 4-Die Sets also include a separate taper crimp die. The 4-die set is perfect for those loading pistol calibers that headspace on the case mouth.

Rifle 2-Die Sets

Set consists of a full length resizing die with decapping stem and neck expanding button and a bullet seating die. These die sets are the reloader's best choice for loading jacketed bullets in bottlenecked rifle cases. For those who load cast bullets, we suggest the addition of a neck expanding die, available separately.

Rifle 3-Die Sets

Straight wall rifle cases require these three die sets consisting of a full length resizing die with decapping stem, **a two step neck expanding (M) die** *(described on pg 13) and a bullet seating die. These sets are ideal for loading cast bullets due to the inclusion of the neck expanding die.*

Decapping Rods and Assemblies

Pistol rods are available in two styles; our original (threaded) rod unit with replaceable decapping pins and our one piece system. This decapping rod is a stronger one piece design with a hardened pin. All pistol dies are currently equipped with this rod. Rifle dies have an improved centering system requiring two different decapping rod lengths, 3.5" or 4.25", depending on caliber of the die. When ordering decapping assemblies, please indicate length or style required.

Shellholder Set

We have selected the 12 most used shellholders which fit the most popular pistol and rifle calibers and place them into a handy compartmented storage box. This set includes shellholders #1, 2, 6, 7, 11, 12, 13, 14B, 15, 17, 22 and 26 which fit well over 75 different calibers. (See reference chart for calibers). Best of all, this will save 60% over buying individual shells.

Shellholder Set with Box . . . . . (#7712110)

Brass Smith® Powder Measure

Whether dropping charges for small pistol cases or large rifle cases, this measure gives consistent and accurate performance. The CNC machined steel metering cylinder features a micrometer adjustable thimble with reference lines so resetting the measure is easy. The reservoir is equipped with a powder baffle which maintains a consistent powder level for top accuracy. Includes two drop tubes to cover the full range of calibers.

- **Micrometer adjustment**
- **Ambidextrous metering cylinder/handle**
- **Multiple handle angle positions for optimum comfort**
- **CNC machined steel metering cylinder**
- **Includes powder baffle**
- **Machined with 7/8"x14 threads to fit all presses and stands**

Powder Measure Baffle . . . . . (#7767758)

Great Value!

Brass Smith® Powder Trickler

The Lyman Brass Smith® Powder Trickler was designed with the serious reloader in mind, combining all the features that they are looking for. It starts with a static free die cast aluminum body, which is adjustable for height. The base is machined out of a solid piece of steel, which gives the trickler plenty of weight and stability. The trickler also comes with an aluminum feed tube which can be set-up for a longer reach with the addition of the included feed tube extension. This allows it to be used with electronic scales with wider bodies, as well as mechanical beam scales. The large diameter knob on the feed tube gives you added precision and control when trickling powder out of the generously proportioned powder hopper. And finally, it has an attractive powder coat finish.

Powder Trickler . . . . . (#7752500)

Brass Smith® Powder Measure Stand

Lyman listened to the suggestions of our customers and have redesigned our powder measure stand. The Brass Smith® Powder Measure Stand can be mounted firmly to either a bench top or to a wall. Features standard 7/8"x 14 threads and will raise any measure high enough to easily position cases beneath the powder drop tube. Made of tough die cast aluminum.

Powder Measure Stand . . . . . (#7767788)

Brass Smith® Precision Funnel Set

Lyman's Precision Funnel Set is the "Perfect" system for the serious reloader. The Brass Smith® Precision Funnel Set is made to be completely static free, no more powder clinging to surfaces which can happen with lightweight plastic funnels. The solid construction and quality of the Brass Smith® Precision Funnel Set will be apparent in its first use. This is no "one size fits all" funnel, the Brass Smith® Precision Funnel Set uses precision machined, caliber specific inserts to properly fit the case neck. The inserts can be quickly and easily installed by simply pushing them into place and then pulling them out when changing calibers. The Brass Smith® Precision Funnel Set also comes with a padded storage case that neatly stores extra inserts when not in use.

The funnel comes with inserts for 22, 243/6mm, 25/6.5mm, 270/7mm, 30 and 338 caliber rifle cartridges.

- **Static Free aluminum die cast body and turned aluminum components**
- **Precision fit, CNC turned aluminum inserts for calibers 22 to 338**
- **Inserts are quick and easy to install and remove**
- **Convenient handle**
- **Includes padded storage case**
- **Inserts are laser marked for caliber identification**

Brass Smith® 500 Metal Reloading Scale

The Lyman Brass Smith® 500 Metal Reloading Scale offers all of the features that serious reloaders are looking for. The Brass Smith® 500 is built upon a sturdy aluminum body which reduces vibrations and ensures accuracy. The beam is double sided and the pan has two handles making it easy for right or left handed reloaders to use. In addition, the beam features black markings with a white background for easy reading throughout its 505 grain capacity. The scale also features magnetic dampening and precision ground knife edges for fast, smooth and accurate operation. Each scale is carefully calibrated at the factory and is accurate to plus or minus 1/10 grain.

500 Reloading Scale . . . . . (#7752225)

Powder Pal™ Universal Funnel Pan

An innovative product for the reloader. The One Piece Combination Powder Pal Funnel Pan. This unique Funnel Pan saves time by saving one step during reloading. It is no longer necessary to put the funnel on the cartridge case and pour the powder in. Just pour it directly from the Funnel Pan into the case. Every reloader with an electronic scale will want to replace the powder pan with a time saving Powder Pal Funnel Pan. More innovations from Lyman. For use with electronic scales only. (US Patent # D568436)

Funnel Pan . . . . . (#7752433)

Full range of height adjustment handles any reloading scale.

E-ZEE Flo™ Universal Powder Trickler

Now the first powder Trickler that works with any reloading scale. Lyman's E-ZEE Flo accessory powder Trickler features an adjustable base that adapts to even that highest scale platform. Powder Trickler tube has an extension that allows use with electronic scales that have larger platform bases. The combination of the two adjustments allows use with any scale, mechanical or electronic.

Powder Trickler . . . . . (#7752477)

E-ZEE™ Powder Funnel

Redesigned with all of the latest cartridges in mind, the specially designed powder nozzle of this funnel handles everything from the smallest .22 up to the big .50 calibers. Including the Super Short Magnums.

Funnel . . . . . (#7752431)

Gen6™ Compact Powder System

Extra Large, easy-to-read LCD Display

Quick drain to change powders

Gen6™ Compact Touch Screen Powder System

The compact Gen6 design takes a minimum of bench space and offers unrestricted pan and touch screen access for both right- and left-hand users. Accurate to one tenth grain, The Gen6 dispenses all types of smokeless powder at two grains per second. In addition, it features an auto repeat function that drops a precise charge each time the pan is reset.

Based on digital technology that overcomes problems commonly experienced by older designs, the system is packed with additional state of the art improvements like fast, 3-minute warm-up, anti-static and anti-drift technology and both have electronic shielding to resist interference from other electronic devices like cell phones, etc.

- **1500 Grain Capacity**
- **Touch Screen Controls**
- **Compact Size - Uses 50% Less Bench Space!**
- **Auto Repeat Function Drops Charges Each Time Pan Is Reset**
- **Fast Operation - Dispenses 2 Grains Per Second**
- **Easy To Use Controls and Powder Pan Access for both Right and Left Hand Users**
- **Anti-Static/Anti-Drift Technology**
- **Electronic Interference Shield Resists Interference from Cell Phones, etc.**
- **Quick-Drain Powder System for Easy Powder Changes**

Pocket Touch™ Digital Scale Set

The Pocket-Touch 1500 offers full size performance in a very compact, portable design. The scale is just 2¼" x 4¼" x ¾" yet provides advanced touch screen controls and a full 1500 grain capacity. The scale comes with our patented Universal Funnel Pan, powder scoop and calibration weight. The unique Funnel Pan allows powder charges to be poured directly from the pan into the case. No need for a separate funnel. The scale has an easy to read, lighted display, is powered by (2)AAA batteries (included) and has an Auto Shut-off.

- **Touch Screen Controls – On/Off, Tare, and Mode/Calibration keys**
- **1500 grain capacity**
- **Universal Funnel Pan – combines a pour spout and a funnel end which accepts 20 caliber to 50 caliber cases**
- **Built-in, hinged dust cover**
- **Operates in grains or grams**
- **Handy powder scoop included**
- **100 gram calibration weight included**
- **Easy to read, lighted, digital display**

Pocket Touch . . . . . .(#7750725)(115/230V)

Digi-Touch™ 1500 Electronic Reloading Scale

The Digi-Touch 1500 offers full size performance in a compact, portable design. The scale is only 3 ½" x 5 ¾" and has a hard-shell case which protects it during transport or in storage. The Digi-Touch 1500 features easy to use controls to operate the bright LED display and will handle up to 1500 grains. The scale is equipped with an internal, rechargeable battery that is charged with standard cell phone chargers. Ports are provided for Micro USB, USB Type C and Lightning plugs. In addition, the scale comes with a handy powder scoop and calibration weight.

- **Internal, rechargeable battery**
- **Charges with standard cell phone chargers (not included)**
- **1500 grain capacity**
- **Reads in grains or grams**
- **Tough, hinged, removeable cover**
- **Handy powder scoop included**

Digi-Touch 1500 . . . . . (115V/230V) (#7750730)

CHARGES WITH ANY STANDARD CELL PHONE CARGER!

Features a Handy Pop-Out Storage Tray!

Accu-Touch™ 2000 Electronic Reloading Scale

The Accu-Touch 2000 reloading scale from Lyman offers many revolutionary features. It comes with a removable powder trickler that can be mounted on the scale in a right or left-hand position. Unlike most competitive scales, the Accu-Touch 2000 is accurate to within 1/10 of a grain over its full, extra large, 2000 grain capacity. It works in either grain or gram mode. The handy pop-out tray on the back stores all your accessories, and the fold back dust cover keeps the scale protected. Also includes calibration weight, Universal AC Adapter, and cleaning brush. It will also run on a 9V battery (not included).

- **Touch Screen Controls**
- **2000 Grain Capacity**
- **Anti-Drift Technology Assures Accuracy to 1/10 Grain**
- **Includes Removable Powder Trickler that Works in Right or Left-Hand Position**
- **Includes Powder Brush & Universal AC Adapter**
- **Handy Pop-Out Tray Stores Accessories**
- **Fold Back Dust Cover to Protect Scale**
- **Grains or Grams**

Accu-Touch 2000 . . . . . (115/230V)(#7751558)

Pro-Touch™ 1500 Electronic Reloading Scale

Lyman's Pro-Touch 1500 scale features a large, easy to use touch screen display with easy to read 7/8" tall numbers and full size control buttons. The Pro-Touch 1500 is accurate to +/– 1/10 grain over its full 1500 grain capacity. The dual spout powder pan allows for easy use by either right-handed or left-handed reloaders. The removable dust cover will protect the scale when not in use. The Pro-Touch 1500 will operate with either the supplied AC power adapter or with three AAA batteries (not included).

- **Advanced Touch-Screen Technology**
- **1500 Grain Capacity**
- **Accurate to 1/10 Grain**
- **Works in Grain or Gram Mode**
- **Removable Dust Cover**
- **Large, Easy to Read Digital Display with Full Size Control Buttons**

Pro-Touch . . . . . (#7750718) (115V/230V)

Replacement Power Plug Accu-Touch, Pro-Touch, and Micro-Touch:
. . . . . (#7752412)

Micro-Touch™ 1500 Electronic Reloading Scale

The Micro-Touch 1500 has all the features of much larger models combined with state-of-the-art touch screen controls. Just 3.25" wide by 5.375" long and 1.25" tall with the dust cover in place, this scale has a full 1500 grain capacity. It is powered by an included AC adapter, but can also function on battery power when at the range or camp. The Micro-Touch 1500 also includes its own powder pan and calibration weight.

- **Touch Screen Controls**
- **1500 Grain Capacity**
- **Accurate to 1/10 Grain**
- **Works in Grain or Gram Mode**
- **Fold Back Dust Cover**
- **Works with AC Adapter (incl.) or 3 AAA Batteries (not included)**
- **Large Easy-to-Read Digital Display**

Cyclone® Rotary Tumbler

The Cyclone Rotary Tumbler takes brass cleaning to a whole new level. The rotary tumbling action combined with the stainless steel media and liquid cleaning solution gets brass cleaner on the outside than vibratory tumbling methods. The small stainless pins easily slip inside cases and into primer pockets to provide superior cleaning action in these areas. Something that a vibratory tumbler will not do! The large capacity drum holds up to 1000 pieces of .223 brass and features a rubber lining to protect brass and greatly reduce noise during operation. A built in timer in the base can be set to run from 0 to 3 hours, shutting off automatically. The drum features a large end cap to allow easy loading and unloading.

In addition, the tumbler comes with a pair of unique sifter pans which makes separating pins from the cases a breeze! Simply empty the tumbler into the stacked pans. The first pan catches the brass, while the second fine screen pan catches the pins. Five pounds of stainless media pins and a sample packet of Brass Cleaning Solution are also included.

Cyclone Rotary Tumbler 115V . . . . . (#7631550)
Cyclone Rotary Tumbler 230V . . . . . (#7631551)
Additional Drum . . . . . (#7631450)
Replacement Power Cord . . . . . (#7994464)

The following items are INCLUDED with the Lyman Cyclone® Rotary tumbler, but also available separately for use with other tumblers.
Dual Sifter Set . . . . . (#7631314)
Stainless Steel Cleaning Media 5lbs . . . . . (#7631375)

The Cyclone® Rotary Tumbler has everything you need to get started: it includes 5 pounds of stainless steel media pins and sample packet of cleaning solution, as well as the unique Dual Sifter System.

Stainless Steel Pin Magnet

Lyman's Stainless Steel Pin Transfer Magnet is the answer for separating your cases from the media pins used in rotary tumblers. Simply pass the magnet over the mixture of cases and pins and the pins will be pulled out and grabbed by the magnet. To release the pins, just pull up on the handle. The large diameter, strong magnet will collect many pins in a single pass. Fast, convenient and simply to use! A perfect companion for the Lyman Cyclone Rotary Tumbler and other brands of rotary tumblers.

Stainless Steel Pin Magnet. . . . . .(#7631370)

Rotary Tumbler Cleaning Solutions

Case Cleaning Solution 16oz . . . . . .(#7631705)
Case Cleaning Solution 32oz . . . . . .(#7631714)

Lyman's Dual Sifter System separates pins from cases better than any other system. The first pan catches the brass, while the second pan catches the pins. Separate cases and media, all in one step!

WARNING: Cancer and Reproductive Harm
www.p65warnings.ca.gov

Cyclone® Case Dryer

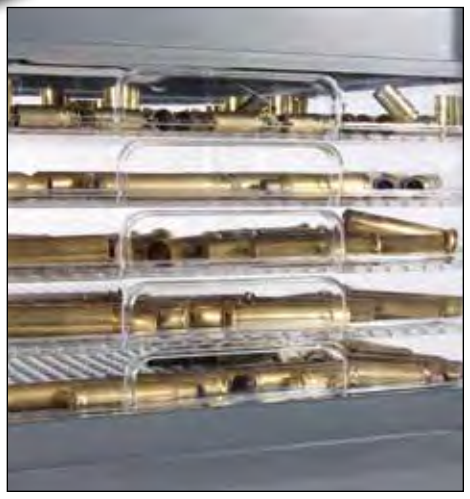
The perfect companion to any Ultrasonic or Rotary cleaning system. No longer will it be necessary to have to wait days for your brass to air dry! The forced heated air circulation of the Cyclone will dry your brass inside and out within an hour or two, with no unsightly water spots. The individual trays can keep your different caliber cases separate. Additionally, the dryer can also be used for gun parts that have been ultrasonically cleaned.

- **Holds up to 1000 – 223 cases or 2000 – 9mm cases**
- **3 hour timer**
- **Recessed handles on trays for easy loading and unloading**
- **Fast drying time**
- **12" L x 9.5" W x 10.75" H (with 5 trays)**
- **Works with brass cases or gun parts**
- **Durable and long-lasting ABS trays**
- **Max temp 150 degrees Fahrenheit**

Cyclone® Case Dryer 115V . . . . . (#7631560)
Cyclone® Case Dryer 230V . . . . . (#7631561)
(Note: 230V model contains a universal plug to work in most countries.)
Replacement Tray . . . . . (#7631565)

The Cyclone Case Dryer can also be used for gun parts or tools that have been ultrasonically cleaned, to prevent rust and water spots.

Convenient timer shuts machine off when drying time is complete.



Use multiple trays to keep different calibers sorted during drying.

The Power Pro Accessory Lube Tank delivers ultrasonic lubrication without draining the cleaning solution

Handy built-in spout extends for pouring with no mess!

Turbo Sonic® Power Professional

Designed for high volume cleaning or for larger than normal items, the TurboSonic Power Pro's 34.75" heated stainless steel tank can easily handle most barreled actions, upper receivers, as well as several handguns at a time. The powerful industrial transducers aggressively deep clean and degrease items, both inside and out. In fact, the Power Pro is such an effective cleaner that Lyman recommends that cleaned parts immediately be ultrasonically treated with Lyman's TurboSonic Gun Lube. Changing from cleaning to lubrication is easy with the built in drain system. Lyman now offers both cleaning concentrate and parts lubricant in gallon containers.

For complete control of the process, the Power Pro has both a timer and an adjustable heat control. Temperatures up to 175 degrees can be selected.

Power Pro Accessory Lube Tank

Now, users of Lyman's industrial strength Power Pro ultrasonic cleaner can easily and completely lube parts without draining the cleaning solution from the unit. This rugged, stainless tank is designed to sit in the Power Pro's cleaning tank which remains filled with cleaner. The unit's powerful ultrasonic action is transmitted through the cleaning solution into the accessory tank filled with lube. No tank draining or cleaning needed. 2 gallon capacity.

- **Allows firearms to be lubricated without draining cleaning solution**
- **Side brackets support the accessory tank allowing it to sit in the cleaning solution, transferring the ultrasonic action to the lube**
- **Tough, welded metal construction**
- **Large handles make moving the tank easy**
- **Huge time savings when cleaning multiple firearms**

Power Pro Lube Tank . . . . . (#7631739)

Turbo Sonic® Barrel & Gun Parts Lube

Specifically formulated for ultrasonic use right out of the bottle, TurboSonic Gun Lube displaces moisture and penetrates all the hard to reach areas of any part making it ideal for use after ultrasonic cleaning. Formulated for superior firearms lubrication and protection, the lube leaves a dry protective, lubricating film and can be reused repeatedly.

New Power Pros
in 6L and 3L sizes!

Make your life easier by harnessing the power of ultrasonic cleaning.
Get EVERYTHING sparkling clean without scrubbing or steel wool pads.
Our New Power Pro Ultrasonic Cleaners handle the toughest cleaning jobs - so you don't have to!

Clean dirty tools, brass cases, gun parts, engine parts, jewelry, and more. You won't believe how your items will shine with just water! Simply fill the tank with water, insert your items, and you'll see professional cleaning results. Pair with Lyman's TurboSonic Cleaning Solutions for brass or steel cleaning or just add a bit of liquid hand/dish soap for enhanced cleaning of everyday items. The work is done by the ultrasonic waves. This powerful unit cleans in minutes without damaging delicate items. The PowerPro will safely make them sparkle again.

Ultrasonic action creates deep but gentle clean. This powerful cleaner packs a gentle punch with 40,000 Hz of ultrasonic energy waves to create millions of microscopic cleansing bubbles that gently lift dirt away without using harsh chemicals or scrubbing. The motion of the water may look mild, but it actually generates a deep and thorough clean to get into the most difficult areas.

The 3L holds 101oz, with interior dimensions of 9.4" L x 5.3" W x 3.9" H, and the 6L holds 203oz, with interior dimensions of 11.8" L x 5.9" W x 5.9" H, allowing you to fit a wide assortment of items into the stainless steel tank for professional cleaning.

Easy operation: Choose 5, 10, or 30 minutes depending on the cleaning level you require. Pre-heat the unit to the desired temperature, push the time button and the Power Pro will do the work! The unit will automatically shut off at the end of the time cycle.

- **Cleans brass cases inside & out, including primer pockets, when used with Lyman's TurboSonic Case Cleaning Solution**
- **Great for steel and stainless steel when used with Lyman's Steel Cleaning Solution**
- **Ultrasonic cavitation lifts and dissolves carbon, dirt, grease, and residue**
- **Safe and reliable heater can be set to exact temperature to deliver superior cleaning**
- **Clean dirt and rust from tools, car parts, bike parts and more**
- **Make jewelry and glass sparkle**
- **Get inside hard to reach spots**
- **Large tank provides greater capacity**
- **Sleek Black Stainless exterior protects the unit and looks great on your workbench**
- **Exterior drain and hose makes emptying easy - no need to carry a heavy unit or spill hot water when dumping**

Turbo® Charger Media Reactivator

Turbo® Charger Media Reactivator will restore previously used corncob media. Simply add as instructed directly to media.

Media Reactivator (4 oz. bottle) . . . . . .(#7631322)

Turbo® Super Sifter

The Turbo Super Sifter allows cases to be easily separated from media while positioned over 7, 5, 3 or 2 gallon pails. These commonly available pails make the perfect container for storing used media. The sifter is equipped with large handles to make it easy to use with large volumes of cases and media. The extra deep design prevents media from spilling over the edges when pouring case and media from a tumbler and when in use.

- **Works with common 7, 5, 3 and 2 gallon pails**
- **Extra deep design keeps media inside the sifter and off the floor**
- **Large handles make the sifter easy to use**

Turbo Sifter . . . . . .(#7631316)

Turbo® Case/Media Separator

Lyman puts a "spin" on the media separator and makes the messy job of sifting media from cases much easier. The inner basket can be positioned to prevent movement as cases are poured in. The crank handle cover spins freely on the crank, for a more comfortable grip. Improved latches provide a solid lock for the basket and the outer cover. Covers have interlocking edges to seal media and dust inside.

- **Free spinning crank handle cover**
- **Improved latches for tight lock basket & cover**
- **Can be used with either right or left hand**
- **Tight seal to trap media and dust inside**

Media Separator . . . . . .(#7631326)

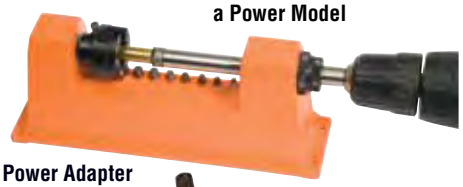
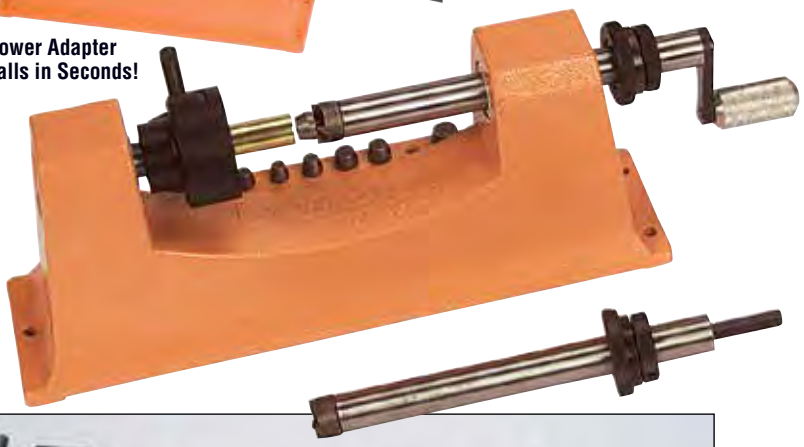
Lyman Trimmers Include 9 Most Popular Trimmer Pilots

Carbide Cutter is ideal for high volume reloaders

Transform Your Trimmer into a Power Model



Power Adapter Installs in Seconds!



Universal® Trimmer

Lyman's Universal Trimmer features the popular Universal Chuckhead which handles any case from .17 caliber to .458. No costly collets required! Features coarse and fine adjustments. Adjusting ring lets you "dial in to an approximate setting for quick repeatability". Includes 9 of the most popular pilots. Optional power adapter lets you upgrade to power in seconds.

Universal Trimmer . . . . . (#7862000)
Replacement Chuck Head . . . . . (#7994434)

Universal® Carbide Case Trimmer

This case trimmer adds the longer life and ultra-sharp cutting qualities of a carbide tool to Lyman's well-known Universal Trimmer. The Universal Carbide Case Trimmer takes advantage of the premium Carbide Cutter Head's fine grain and ultra-sharp cutting edge. This Carbide Head will hold its edge and dimensions longer, making this trimmer ideal for volume reloaders. Lyman's Universal Chuckhead handles any case from .17 caliber to .458 caliber with no collets or shell holders required and includes 9 of the most popular caliber pilots.

Carbide Case Trimmer . . . . . (#7862009)

Universal® Trimmer Power Adapter

Quickly convert to power trimming. Replace the existing trimmer shaft with the power adapter shaft and attach your drill. You're ready to power trim over 250 cases an hour. The adapter shaft comes with its own cutter and stop collars so you can convert back and forth from power to hand operation. The power adapter only fits the Lyman Universal Trimmer.

Power Adapter . . . . . (#7862001)

Universal® Trimmer Power Pack Combo

The Power Pack Combo combines Lyman's Power Adapter with Lyman's popular Universal Trimmer. This allows quick and simple conversion from hand to power trimming. All you need is a standard electric hand drill or power screwdriver. Simply unscrew the cutter head from the standard shaft and slide it out of the trimmer. Then slip the power adapter shaft in its place, screw on the cutter head and attach your drill. You're ready to power trim over 250 cases an hour. The adapter shaft comes with its own cutter and stop collars and includes 9 pilot multi-pack

Power Pack Combo . . . . . (#7862003)

AccuTrimmer™

Trims cases .17 through .458 Win. Mag. Uses standard shellholders to position cartridge and standard Lyman cutter heads and pilots. Includes our popular nine Pilot Multi-Pack. Purchase with shellholder set shown in gray box below or on page 17 and reloader has universal "trimability".

AccuTrimmer Multi-Pack . . . . . (#7862210)

50 BMG AccuTrimmer™

An AccuTrimmer designed specifically for 50 BMG cartridges. The shell head fits into a special holder which centers the case with the cutting shaft. A special 50 BMG pilot is included for perfect alignment and easy trimming.

50 BMG . . . . . (#7862130)

Case Trimmer Accessories

Accessory Carbide Cutter Head

An optional carbide cutter fits all Lyman trimmers. Ideal for volume reloader. **NOTE: Does not fit Case Trim Xpress.**

Cutter Head . . . . . (#7822204)

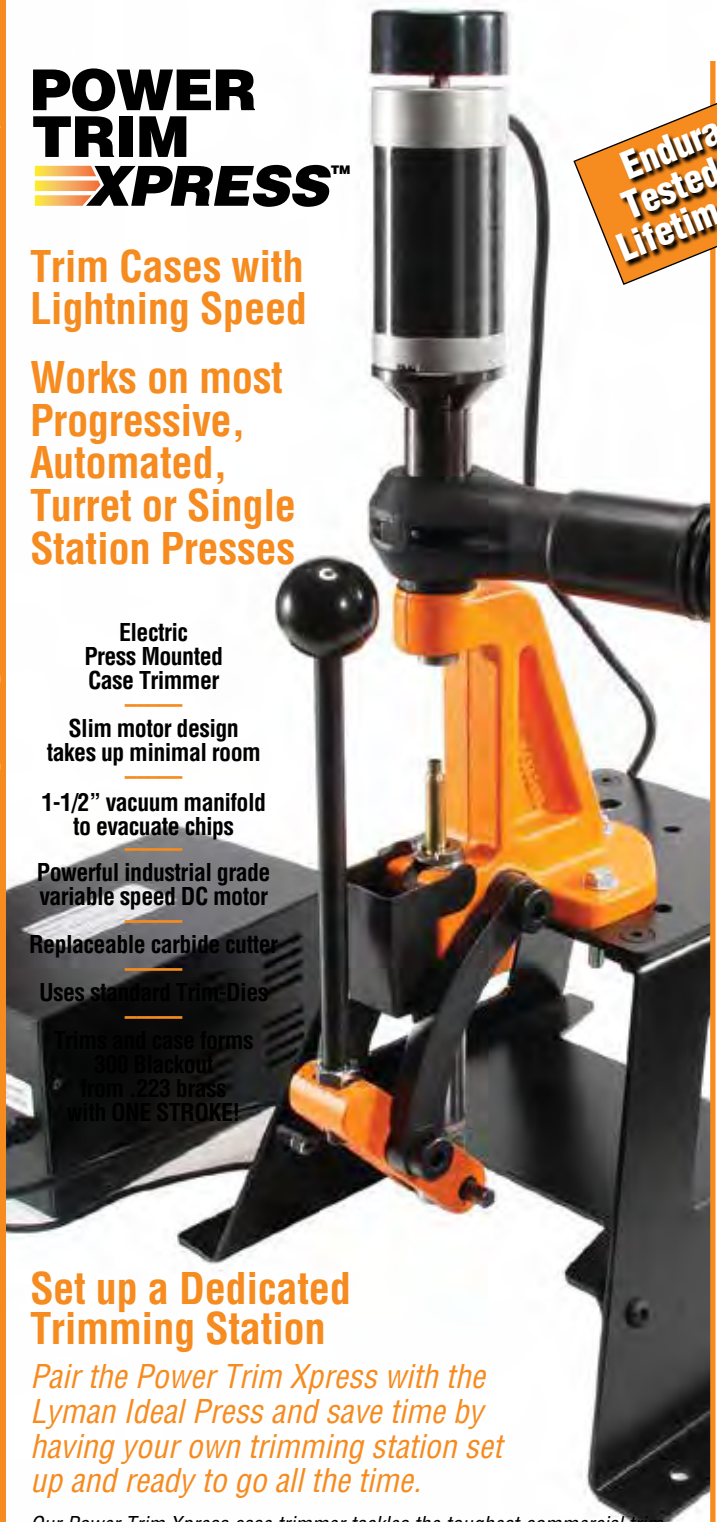
POWER TRIM XPRESS™

Trim Cases with Lightning Speed

Works on most Progressive, Automated, Turret or Single Station Presses



Electric Press Mounted Case Trimmer

Slim motor design takes up minimal room

1-1/2" vacuum manifold to evacuate chips

Powerful industrial grade variable speed DC motor

Replaceable carbide cutter

Uses standard Trim Dies

Trims and case forms 300 Blackout from .223 brass with ONE STROKE!

Set up a Dedicated Trimming Station

Pair the Power Trim Xpress with the Lyman Ideal Press and save time by having your own trimming station set up and ready to go all the time.

Our Power Trim Xpress case trimmer tackles the toughest commercial trimming jobs yet is priced to fit any reloaders budget. The trimmer features a powerful variable speed DC motor. The motor is often found on industrial CNC equipment, so you know that it is a tough work horse, yet it is also a slim design that takes up minimal room.

The trimmer will speed through standard trim jobs as well as easily handle cartridge conversions such as 223 to 300 Blackout.

The trimmer will accept standard trim dies and is equipped with a vacuum manifold to cleanly evacuate chips. In addition, the trimmer comes with a long-lasting carbide cutter.

Power Trim Xpress 110V . . . . . (#101-1196-01)
Power Trim Xpress 220V . . . . . (#101-1196-02)

Extended #26 Shellholder . . . . . (#7738155)
(Needed when coverting 223 to 300 Blk)

Endurance Tested For a Lifetime of Use

Brass Smith Case Trim Xpress™

Lyman's Case Trim Xpress gives rifle reloaders the speed and accuracy they need when trimming cases! The unit has its own power source, and a strong variable speed motor, so there is no need to use power drills or purchase separate motors. By using bushings that contact on the shoulder of bottle neck type cases, the Case Trim Xpress will quickly and cleanly trim your brass by simply pushing the case against the long lasting carbide cutter. The trimmer comes with a set of 10 bushings (in orange type below) designed to fit most popular bottleneck rifle cases. The bushings support and center the case with the cutter. No pilots are needed! The bushings are spring loaded to provide a smooth, effortless cut; and allow the user to trim approximately 15 cases per minute. In addition, the Case Trim Xpress is equipped with an adjustment wheel, which allows case lengths to easily be "dialed in" to .001" increments. Plus it is made with a compact, low profile housing that doesn't eat up all of your bench space.

- **Fast and accurate trims – approximately 15 cases per minute**
- **Variable speed motor and ultra-sharp, long lasting carbide cutter**
- **Utilizes case shoulders to center & trim (Not for use on straight wall cases)**
- **Comes with 10 bushings fitting most popular bottleneck rifle cartridges**
- **Smooth spring-loaded operation gives clean, chatter-free trims**
- **Compact, low profile design uses minimal bench space**
- **No pilots needed**

E-ZEE Trim™ Hand Case Trimmer

Lyman's case trimming system is designed for the reloader interested in economy or preferring to have an individual precision hand system for each caliber. The E-ZEE TRIM case trimming system allows the user to trim cases by hand or with a power attachment (included) to precise pre-set length - no adjustment of measuring needed. The trimmer comes with a case locking device, cutter, trim-to length pilot, cutter head and both hand and power trimming adapters. The trimmer works with any standard shell holder including Lyman, Redding, RCBS, Hornady and Lee Precision. Assembles in seconds and you are ready to trim cases. The E-ZEE TRIM system comes in three practical variations to make it simple for the consumer and simpler for the trade to stock.

E-ZEE TRIM Rifle Set

Includes hand trimmer, power adapter, cutter head and 5 most popular rifle caliber pilots (.223, .243, .270, .30-06, .308)

"E-ZEE" Trim Rifle Set (5 Pilots*) . . . . . (#7821891)

E-ZEE TRIM Handgun Set

Includes hand trimmer, power adapter, cutter head, and 6 most popular handgun caliber pilots (9mm, 38 Spec. 357, 40 S&W, 44 Mag, 45 ACP)

"E-ZEE" Trim Handgun Set (6 Pilots**) . . . . . (#7821892)

E-ZEE TRIM Universal Set

Includes hand trimmer, power adapter, and cutter head. Just add the pilot for the caliber you wish to trim.

"E-ZEE" Trim Universal (No Pilots) . . . . . (#7821890)

E-ZEE Trim™ Rubber Handle Accessory

Slips easily over the adapter handle to provide a cushioned, comfortable grip.

E-ZEE Trim Handle . . . . . (#7821893)

A. Primer Pocket Reamers

Remove military crimps and rough metal edges from a primer pocket. Available in large and small sizes.

Reamer Large . . . . . (#7777785)
Reamer Small . . . . . (#7777784)

B. Primer Pocket Cleaners

Clean out fouling of primer pocket bottoms. Large & small sizes.

Cleaner Large . . . . . (#7777790)
Cleaner Small . . . . . (#7777791)

C. Primer Pocket Uniformers

This precision tool allows reloaders to assure uniform primer depth which produces consistent ignition and improves accuracy. Uniforming tool has a pre-set stop collar set to SAAMI specs. Reloader simply inserts and turns. Available in large and small sizes. (Large for rifle cases only, Small for rifle or pistol cases)

Uniformer Large . . . . . (#7810215)
Uniformer Small . . . . . (#7810218)

C. Large Pistol Primer Pocket Uniformer

The Large Pistol Primer Pocket Uniformer is designed to cut primer pockets to a uniform depth that can produce more consistent ignition and lead to greater accuracy. The Primer Pocket Uniformer cuts to a uniform depth and at the same time squares the seating surface for the anvil of the primer.

Large Pistol Uniformer . . . . . (#7810219)

D. Lyman VLD (Very Low Drag) Chamfer/Reamer

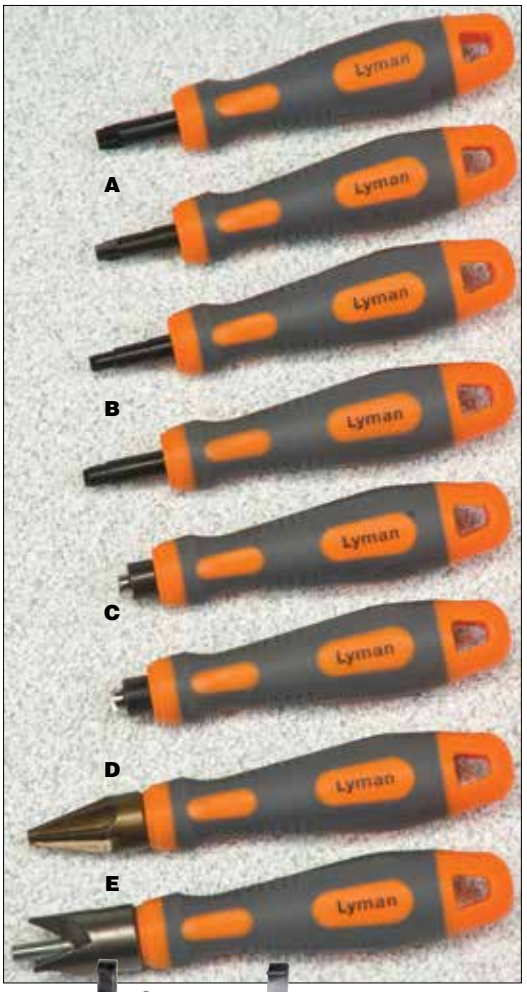
Lyman's VLD Chamfer/ Reamer eliminates damage to bullets caused by the sharp edges of the cartridge case neck. The long boat tail on VLD bullets are cut by the case mouth when chamfered with a standard 45 degree reamer. The sharp 22 degrees on the VLD reamer allows all bullets to slip easily into the case ensuring the best accuracy. Recommended for Sierra VLD and other manufacturer's VLD bullets.

Chamfer/Reamer . . . . . (#7777789)

E. Outside Chamfer Tool

Bevels and removes burrs from the outside of the case mouth. Precision machined and hardened, fits all cases from .17 to .45 caliber.

Outside Deburring Tool . . . . . (#7810222)



50 BMG Case Prep Multi-Tool

(Actual Size)

Universal Case Prep Accessory Set

This handy kit is the perfect accessory to your Universal Case Trimmer. It contains everything you need to properly complete case preparation, all in a durable storage case. Save over 30% versus individual purchases. **Set includes:**

- **Large & Small Primer Pocket Cleaners and Primer Pocket Reamers**
- **Large & Small Primer Pocket Uniformers • Outside Deburring Tool**
- **Inside Deburring Tool VLD**

Case Prep Accessory Set . . . . . (#7810212)

Case Prep Multi-Tool™

Lyman's Unique Case Prep Multi-Tool provides the reloader with all the essential Case Prep Accessories in one compact, Double-ended Storage Tool. Unique knurled handle un-threads in the middle to store all parts. Both ends of the handle are threaded to allow two tool heads to be mounted simultaneously.

Includes: • Outside Deburring Tool • VLD Inside Deburring Tool
• Large & Small Primer Pocket Cleaners • Large & Small Primer Pocket Reamers

Case Prep Multi-Tool . . . . . (#7777800)

50 BMG Case Prep Multi-Tool™

Reloaders of the Big 50 no longer have to make do with undersized standard or makeshift tools to prep their 50 BMG cases. Lyman has engineered full-sized .50 calibers tools and put them together in a handy double ended storage handle - always ready and all in one place. The unique knurled handle un-threads in the middle to store all the parts. Both ends of the handle are threaded to allow a tool head to be mounted on each end. In addition to the double ended, storage handle the set includes:

- **.50 Cal. Outside Deburring Tool • .50 Cal. VLD Inside Deburring Tool**
- **.50 BMG Primer Pocket Reamer, Cleaner, Uniformer**

Case Prep Multi-Tool . . . . . (#7777811)

A. Quick Slick™ Pump Case Lube

Lyman's popular "Quick Slick" spray case lube is now available in a large and economical 16oz pump spray. The large ergonomic spray bottle allows you to spray an entire loading block of cases in seconds. Dries quickly to a light, clear film, and eliminates messy lube pads.

Quick Slick Pump Spray Lube 16oz. . . . . (#7631298)

B. Lyman Loading Block

Essential accessory for organization and speed, twin loading block holds 50 rifle or pistol cases .22 through .45 caliber. Molded of heavy duty plastic.

Loading Block . . . . . (#7728054)

C. Case Neck Dipper

Prolongs case life and makes resizing easier by cleaning and lubricating the interior of bottleneck cases. After cleaning with brushes, dip the case mouths into dry lube to reduce friction from sizing die expander button. Includes 3 brushes and dry lube for cleaning all cases from .17 to .45 caliber.

Case Neck Dipper complete . . . . . (#7631360)
Replacement. Lube Refill (3g) . . . . . (#7991415)

D. Quick Slick™ Case Lube

This petroleum based lube in a can allows you to spray an entire loading block of cases in seconds. Super slick lube helps prevent case dents.

Spray Lube 5.5oz. . . . . (#7631296)

E. Deburring Tool

Bevels and removes burrs from both inside and outside of case mouth. Precision machined and hardened, fits all cases from .17 to .45 caliber.

Deburring Tool . . . . . (#7810199)

F. Primer Tray

Flips primers anvil-side-up for easier loading. Spread on specially grooved surface, replace lid and shake. Made of durable plastic for safety.

Primer Tray . . . . . (#7728053)

Lyman Magnum Inertia Bullet Puller

Safely strips loaded rounds in seconds without damage to bullet or case. Features specifically engineered head design that allows use on full range of calibers from tiny 5.7 X 28FN to the largest Magnums. Full size ergonomic molded handle with rubber insert provides comfort and a sure grip.

Bullet Puller . . . . . (#7810216)
Replacement Small Collet . . . . . (#7810224)
Replacement Large Collet . . . . . (#7810225)
Replacement Threaded Cap . . . . . (#7787786)

Flash Hole Cleaner

Designed to remove bits of media from flash holes and primer pockets.

Flash Hole Cleaner . . . . . (#7777750)

Flash Hole Uniformer

This handy tool removes internal flash hole burrs. Features a tool steel cutter which is inserted into the flash hole through the case neck. Adjustable stop collar allows use with any size case. Burrs are removed with a clockwise turn. Fits .22 to .45 Calibers.

Flash Hole Uniformer . . . . . (#7777760)

Lyman Case Care Kit

The utility crank accepts most Lyman accessories and any tool with an 8-32 thread. Kit includes both Large & Small Primer Pocket Reamers, Cleaners, & Uniformers, as well as Inside and Outside Deburring Tools.

Case Care Kit . . . . . (#7777793)

WARNING: This product can expose you to chemicals including Propylene Glycol T-Butyl Ether or Toluene, which are known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

A. E-ZEE™ Case Gauge

This full-size version measures the case length of over 70 popular rifle and pistol cases. Many new cartridges are included like the Winchester Short Mags, 204 Ruger, 500 S&W, and others. Precisely made, this rugged metal gauge makes sorting cases quick, easy, and accurate.

E-ZEE Case Gauge . . . . . .(#7832215)

B. Pistol E-ZEE™ Case Gauge

Here's Lyman's popular E-ZEE Case Gauge in a smaller, more convenient size yet covering virtually any pistol case. The precise metal "no-go" gauge makes judging case length fast, easy and accurate.

E-ZEE Case Gauge . . . . . .(#7832217)

MSR E-ZEE™ Case Gauge

Lyman's E-ZEE Case Gauges have proven to be a real time saver for reloaders, and are available for most common calibers. The precisely machined metal "No-Go" gauge is cut to SAAMI maximum allowable case length. If a case fails to pass through the gauge, it needs to be trimmed. Lyman is now offering a specialized E-ZEE Case Gauge designed for those reloading for the wide range of MSR calibers. This convenient gauge is offered for the following calibers:

223/5.56, 224 Valkyrie, 6.5 Grendel, 6.5 Creedmoor, 6.8 SPC, 300 Blackout, 308 Win/7.62, 7.62x39, 9mm, 450 Bushmaster, 458SOCOM, 50 Beowulf plus 2.260" max. cartridge OAL

E-ZEE Case Gauge - MSR . . . . . .(#7832225)

Ultra-Fine Dry Case Neck Lube

Many uses for this specialty lube. Dip case neck into lube before sizing to reduce friction from sizing die expander button. Also works great on keys that stick in locks.

Ultra-fine Lube . . . . . (#7991415)

Stainless Steel Dial Caliper

This precision tool will deliver unfailing .001" accuracy. Includes storage case.

Stainless Steel Caliper . . . . . .(#7832212)

Electronic Stainless Steel Caliper

Digital caliper features high tech stainless design with direct digital readout. Switch back & forth from inches to millimeters with the touch of a button. Accurate to .001"/0.1mm. Includes storage case. Uses SR44 battery.

Electronic Caliper . . . . . .(#7832218)

Case Lube Kit

Everything needed to clean and lube cases, inside and out, in one package. Large cloth lubricating pad in plastic case dispenses lube evenly. Includes 2 oz. of Lyman Case Lube, 3 interchangeable neck brushes and a cushioned plastic handle.

Case Lube Kit Complete . . . . . .(#7631300)
Case Lube . . . . . .(#7631301)
Lube Pad Only . . . . . .(#7631302)

Lyman Bleacher Blocks® For Handgun Calibers

Once reloaders began using our popular Bleacher Blocks for rifle cases, we quickly had requests for handgun size Bleacher Blocks. Our Bleacher Blocks answer this request. The handgun blocks follow the same proven stepped design of the rifle blocks, however with shallower holes suitable for handgun cases. Just like the rifle blocks, the stepped design allows you to easily grip a single case without jamming your fingers down into a group of cases like in traditional loading blocks. The stepped design also produces a smaller footprint so they take up less valuable bench space. Made of tough, durable polymer, the handgun size Bleacher Blocks come in two sizes to fit most popular handgun calibers and hold 50 cases. Bleacher blocks measure 6 3/4" x 3 5/8".

- **Molded to closely fit specific case sizes .445" and .565"**
- **Made of tough, durable polymer**
- **Unique stepped design makes it easy to add or remove cases, even when full**
- **Takes up less bench space than traditional blocks**
- **.445" hole size fits: 380 Auto, 9mm Luger, 38 Super, 357 Sig, 38 Special, 357 Mag, 40 S&W, 10mm Auto**
- **.565" hole size fits: 44 Mag, 45 ACP, 45 GAP, 45 Colt, 454 Casull, 460 S&W, 500 S&W**

.445 Handgun Bleacher Blocks . . . . . (#7728088)
.565 Handgun Bleacher Blocks . . . . . (#7728089)

Lyman Bleacher Blocks® for Rifle Calibers

Lyman has taken a "step up" in loading block design with our Bleacher Blocks. Just as bleachers allow people to see over those in front of them, our loading blocks allow for easier handling of cases in and out of the loading block. Our stepped design allows you to easily grip a single case without jamming your fingers down into a group of cases like in traditional loading blocks, and allows for a smaller "footprint" on your bench. Made of tough, durable polymer, the Bleacher Blocks are molded in three sizes to closely fit a variety of rifle cases. One size fits 223 size case heads, another fits 308 size case heads and the third fits belted magnum size cases. All hold 50 rounds. Bleacher blocks measure 6 3/4" x 3 5/8".

- **Molded to closely fit specific case sizes .388", .485", .565"**
- **Made of tough, durable polymer**
- **Unique stepped design makes it easy to add or remove cases, even when full**
- **Takes up less bench space than traditional blocks**

- **.388" hole size – fits: 17 Rem., 17 Rem. Fireball, 204 Ruger, 222 Rem., 222 Rem. Mag., 223 Rem., 300 AAC**

Custom Fit Loading Blocks

Lyman's Custom Fit Loading Blocks are designed to provide a precise fit for a family of cartridge sizes. Made from tough, durable polymer, Custom Fit Loading Blocks hold 50 cartridges and will securely nest together for easy storage. Custom Fit Loading Blocks come in 6 sizes to match up with a large variety of cartridges. Each block is clearly marked with the diameter of the cartridge storage hole.

Lyman Deluxe Anodized Aluminum Loading Blocks

Lyman's Deluxe Anodized Aluminum Loading Blocks are made for precision reloaders who want their equipment to be as high quality as the ammunition that they produce. The blocks are CNC milled from a solid billet of 6061-T6 aluminum to tight tolerances for a close fit to specific cartridges, unlike the common one-size-fits-all plastic blocks. The blocks are made in three sizes to fit most common rifle head sizes, and will hold 50 rounds. Blocks come with stick-on rubber non-slip feet to keep them from sliding on your bench.

Introducing Lyman Pro Gauges and Ammo Checkers!

Pro Headspace Gauges

Lyman Pro Headspace Gauges have more features than any headspace gauge on the market! Inspired by our Lyman Pro Die Sets, the gauges are precision machined from corrosion resistant stainless steel for a long rust-free life. The outside flats prevent rolling, and the o-rings provide a non-slip grip. Pro Headspace gauges check maximum and minimum cartridge headspace as well as maximum case length. Headspace gauges are recommended when setting up sizing dies for any bottle neck cartridge.

Pro Maximum Cartridge Gauges

Lyman Pro Maximum Cartridge Gauges have more features than any cartridge gauge on the market! Inspired by our Lyman Pro Die Sets, the gauges are precision machined from corrosion resistant stainless steel for a long rust-free life. The outside flats prevent rolling, and the o-rings provide a non-slip grip. Pro Maximum Cartridge Gauges check pistol ammunition for case length, diameter, and overall cartridge length. This inspection is considered mandatory by top competitive shooters who demand 100% reliability for their competition ammo.

Pro Stainless Ammo Checkers

Lyman Pro Ammo Checkers are precision machined from corrosion resistant stainless steel to minimum SAAMI chamber tolerances. All Pro Ammo Checkers are clearly marked for caliber. Simply drop your loaded cartridge into the gauge and if it fits, it will chamber in your gun. A "must" final check for competitive shooters or anyone that wants to ensure smooth, trouble free chambering of reloaded ammo.

Rifle Case Length Headspace Gauges

To achieve the highest degree of safety and accuracy, Lyman recommends that all bottleneck rifle cases be inspected after resizing to ensure that the proper headspace dimension is maintained. Simply insert the case into the gauge to insure that it does not exceed the maximum or fall below the minimum allowable headspace. In addition, the gauge will identify a case which exceeds the maximum allowable case length .

Caution: Cases found with excessive headspace should be destroyed immediately.

9mm 100 Hole Ammo Checker Block

Lyman now offers a 100-hole 9mm Ammo Checker. This gauge is made to SAAMI minimum chamber specifications, meaning if your reloaded ammunition drops in the gauge it will chamber in your firearm. With the large 100-hole block it is now faster and easier for the high volume reloader and competition shooter to ensure their reloaded ammunition is dimensionally correct and will function flawlessly in their firearms.

9mm 100 Hole Ammo Checker . . . . . (#7833036)

Ammo Checkers™

Check the quality and consistency of both reloaded rounds and purchased ammo. A must for any auto shooter for easy and consistent feed. You can't afford mis-feeds, so get the easiest "go" gauge available today!

Lyman's Ammo Checkers are gauges that allow a reloader to quickly confirm that their ammunition will fit in their chamber. Machined from solid blocks of 6061 T6 aircraft grade aluminum and cut with custom tooling to SAAMI minimum chamber dimensions, Ammo Checkers are available in three designs covering most common handgun and rifle calibers. One gauge will work with a variety of calibers. (See photo.) Just drop your loaded rounds in the ammo checker, and if the round fits into the gauge, it will fit in the gun's chamber. Each caliber is clearly engraved on the gauge. Bright orange anodizing makes them easy to find on your reloading bench.

Handgun gauge *works with 380 Auto, 9mm Luger, 38 Super, 40 S&W, 45 ACP, 38/357, 44 Mag/Spl, and 45 Colt*

Small Rifle gauge *works with 204 Ruger, 22 Hornet, 223 Rem, 22-250, 300 AAC Blackout and 7.62x39mm*

Large Rifle gauge *works with 243 Win, 270 Win, 30-30 Win, 308 Win, 30-06 and 300 WSM*

MSR Ammo Checker Block

Lyman MSR Ammo Checkers are machined from solid blocks of 6061 T6 aircraft grade aluminum and cut with custom tooling to minimum chamber dimensions. Their black anodized finish matches your favorite "black" rifle. Check the quality and consistency of both loaded rounds and purchased ammo. A must for any AR shooter. You can't afford mis-feeds, so get the easiest "Go" gauge available for modern sporting rifle calibers.

- **Covers 223/5.56, 6.5 Grendel, 6.8 Rem. SPC, 7.62x39, 300AAC Blackout, 450 Bushmaster, 458 SOCOM and 50 Beowulf**
- **CNC machined to minimum chamber specs**
- **Confirm ammo will chamber smoothly**

MSR Ammo Checker Block . . . . . (#7833003)

Ammo Che
Multiple B

Lyman's multi-caliber Ammo Checkers have been extremely popular with reloaders. Now based on demand from our customers, Lyman is adding gauges having 8 chambers with all being of the same caliber. Blocks will be available in 9mm, 45 ACP and 223 Rem. These gauges allow reloaders to take multiple cartridges right off the press and check them as they go. If they fit, they will chamber in your gun.

Multiple Block .223 Rem . . . . . (#7833034)

Single Caliber Model Ammo Checkers™

Lyman's multi-caliber Ammo Checkers have proven to be extremely popular with reloaders since their introduction last year. Ammo Checkers are gauges that verify the quality and consistency of both reloaded and factory ammo. They are machined from solid aluminum and cut with custom tooling to SAAMI minimum chamber tolerances. Just drop your cartridge into the gauge and if it fits, it will chamber in your gun.

Lyman has expanded their line of Ammo Checkers into other calibers that are not included in the multi-caliber blocks. Each gauge is clearly marked for caliber and is anodized in a bright orange color so that they will be easy to spot on your reloading bench.

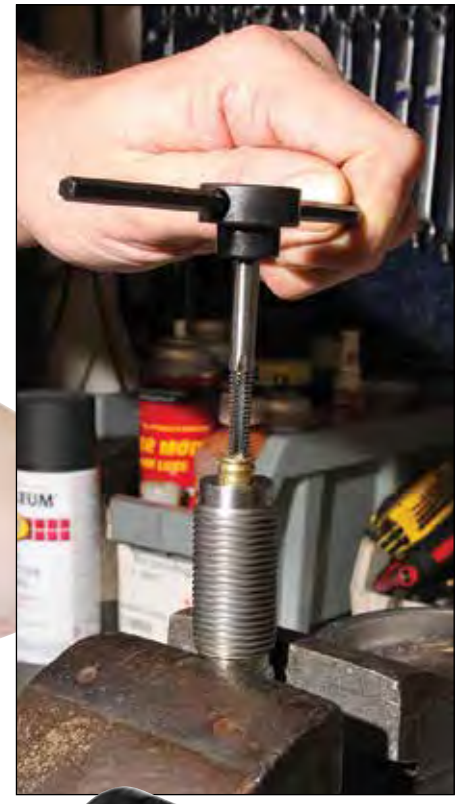
Works with Lyman, RCBS, Lee & Redding Shellholders

Change primer size instantly and use any shellholder you already have.

5-STAR RATED PRODUCT



Ergonomic shape designed to minimize hand fatigue.

Comes with large and small size primer tray/ primer punch assemblies.

E-ZEE™ Prime Hand Priming Tool

Lyman has introduced a dramatic improvement in hand-held priming systems: The E-ZEE Prime Hand Priming Tool. The system works with any popular brand of shellholder and allows instant changeover between primer sizes. Lyman's E-ZEE Prime Tool includes two primer trays, each of which incorporate their own built-in large or small primer punch assembly. There are no small parts to fuss with or lose. Each tray has a built-in shut-off gate to keep primers in place during change-over. The reloader simply removes the snap-in-place lock collar and installs the correct sized primer tray and his standard shellholder as needed. Then the lock collar is snapped in place and the change-over is complete. The primer trays also function as a primer flipper to properly orient primers for seating.

In addition, the tool has a comfortable ergonomic design that works with the tool's optimized leverage system to reduce hand fatigue.

- **Ergonomic shape designed to minimize hand fatigue**
- **Accepts all popular brands of standard shell holders, including Hornady, RCBS, Redding, and Lee Precision**
- **Plenty of leverage, yet provides needed "feel" for precision primer seating**
- **Integral primer tray and primer punch assembly - no small parts to lose**
- **Comes with large and small size primer tray/primer punch assemblies**
- **Primer tray has a built-in shut-off gate to prevent spilling primers**
- **Primer tray doubles as a flipper to orient primers for use**

MADE IN THE USA

Lyman Stuck Case Remover Kit

The Lyman Stuck Case Remover will safely and easily remove stuck cases from sizing dies. Unlike other sets, all the tools that are needed are included. The set includes a unique dual purpose threaded cap that screws over the end of the die. This cap acts as both a drill guide and a guide for the pulling screw. An extra-long hex wrench is included which provides plenty of leverage when removing stuck cases and also doubles as a handle for the tap wrench.

- **Set includes threaded cap, tap drill, ¼-20 tap, hex screw, long hex wrench, and tap wrench.**
- **Everything needed is included in the set**
- **Included unique dual purpose threaded cap**
- **Long hex wrench provides plenty of leverage and doubles as a tap wrench handle**
- **Packed in an easy to display clam shell with full instructions**

Stuck Case Remover Kit . . . . . (#7680350)

Mag 25 Digital Melting Furnace

Lyman has introduced their largest and most precise lead melting furnace yet: The Mag 25. The twenty five pound capacity is five pounds greater than Lyman's popular Mag 20. In addition, this new furnace is the first to offer an advanced digital thermal management system with key pad controls

Designed for the high volume bullet caster, the Mag 25 offers an array of features not found on any other furnace. With 850 watts of power, the furnace is quick to heat up, even with the increased capacity. In addition, the digital display on the front panel shows both the actual lead temperature as well as the desired temperature setting. Precise furnace operation is enhanced by the simple keypad controls.

For casting versatility, the furnace is equipped with a universal mould guide which can adjust for most popular mould blocks from Lyman, RCBS, Redding/Saeco & Lee. Lyman's proven bottom pour valve system and mould block preheating plate assure maximum casting volume.

The Mag 25 sits on a large, stable base with two, front-loading storage compartments for handy access to needed tools. This advanced furnace is offered in both 115 Volt and 230 Volt models.

- Advanced digital thermostat control with simple to use key pad
- Separate digital displays for temp. setting and actual lead temp.
- Larger 25 pound capacity
- Universal mould guide accepts most Lyman, RCBS, Redding/Saeco and Lee moulds
- Powerful 850 watt heating system for fast warm-up
- Warming shelf for pre-heating mould blocks
- Reliable bottom pour valve system for increased bullet production

Mag 25 Digital Furnace 115V . . . . . (#2800382)
Mag 25 Digital Furnace 230V . . . . . (#2800386)
Spare Handle . . . . . (#2800406)

Largest Capacity, Digital Accuracy and Control

Mag 25 is designed to work with Lyman, RCBS, Redding, and Lee Mould Blocks.

WARNING: **Melting lead and casting lead objects will expose you and others in the area to lead, which is known to cause birth defects, other reproductive harm and cancer. See Instructions on Reducing Exposure supplied with product.**

Lyman's "Master Casting Kit"

The Best Way to Get Started in Bullet Casting.

The kit's low price includes Lyman's popular improved 4500 Bullet Sizer/Lubricator. Simply add the right top punch and sizing die and the 4500 will smoothly size down your bullet to the correct diameter while it evenly applies the provided Super Moly lubricant.

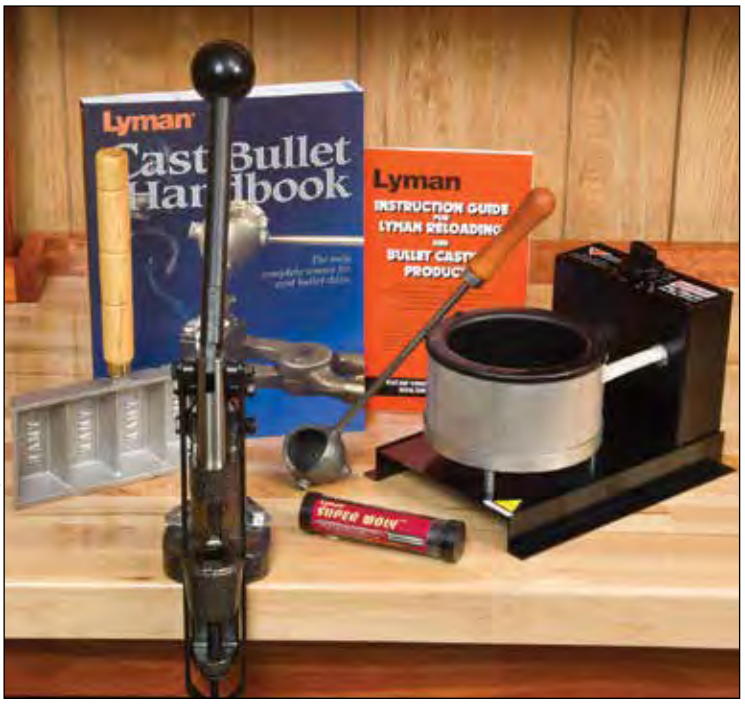
Kit Includes:

- Big Dipper
- 4500 Sizer/Lubricator
- Long handled casting dipper
- Ingot mould
- Super Moly Bullet Lube
- Lyman Cast Bullet Handbook

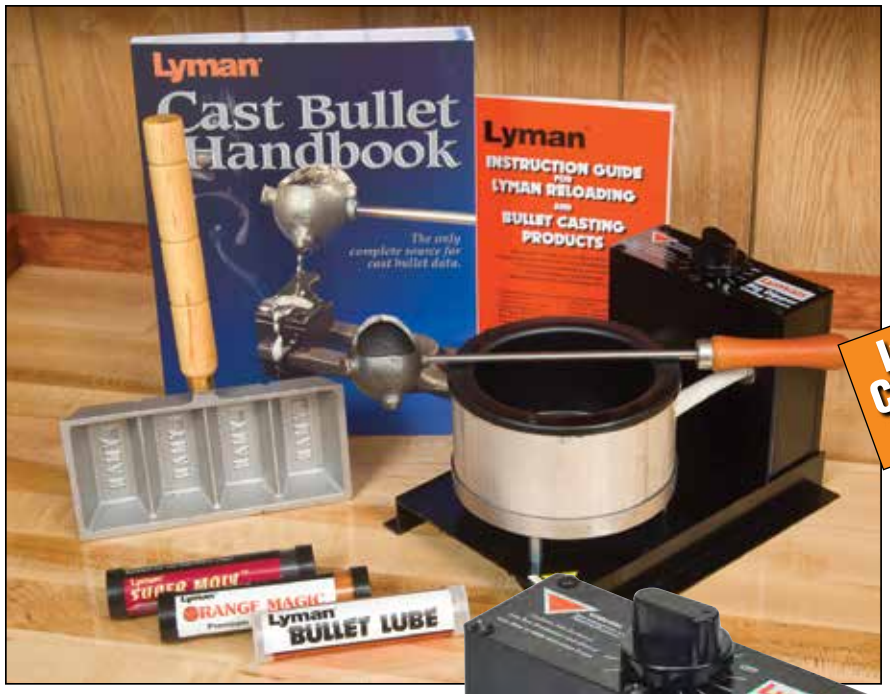
BEST VALUE!

All this for less than the price of most casting furnaces.

Master Casting Kit 115V . . . . . (#2712000)



WARNING: Cancer and Reproductive Harm
www.p65warnings.ca.gov



Includes Cast Bullet Handbook

"Big Dipper" Casting Starter Kit

Features all the items needed to get started in casting bullets economically and efficiently. Includes "Big Dipper" electric casting furnace with 10+ lbs capacity, Lyman Casting Dipper, Ingot Mold for storing excess lead, Super Moly Bullet Lube, Orange Magic Bullet Lube, Alox Bullet Lube, and the Lyman Reloading and Cast Bullet Guide.

Big Dipper Casting Kit 115V . . . . . (#2800375)

"Big Dipper" Electric Casting Furnace

This economical electric casting furnace has more than 10 lb. Capacity. Features fast heat-up time with heat control to +/- 10 degrees. Heats up to 850°. Easy "on-off" temperature dial. Compact size with wide mouth for easy ladling. Heavy duty aluminum construction with stable non-tip design. Pot is blackened steel.(115 Volt)

Big Dipper Furnace 230V . . . . . (#2800355)

10lb. Cast Iron Lead Pot

10lb. capacity, made of cast iron with convenient pour spout. Lyman's lead pot allows the bullet caster to use any source of heat for melting his lead alloy. Nominal pot capacity is ten pounds of alloy. Flat bottom prevents tipping.

10lb. Cast Iron Lead Pot . . . . . (#2867795)

A. Casting Ingot Mould

Useful when melting down scrap lead, emptying your furnace, or when blending alloys. Each mould forms four, easy-to-use ingots that stack easily and will weigh approximately 1 lb. Sides of mould have 30° draft for easy ejection of lead ingots.

Ingot Mould . . . . . (#2837794)

B. Casting Dipper

Our dipper with cast iron head is shaped for easy, accurate pouring and prevents air pockets in the finished bullet. The long stem dipper can also be used for stirring molten lead alloys. Wooden handle stays cool in use. Can be set up for right- or left-hand use.

Casting Dipper . . . . . (#2867790)

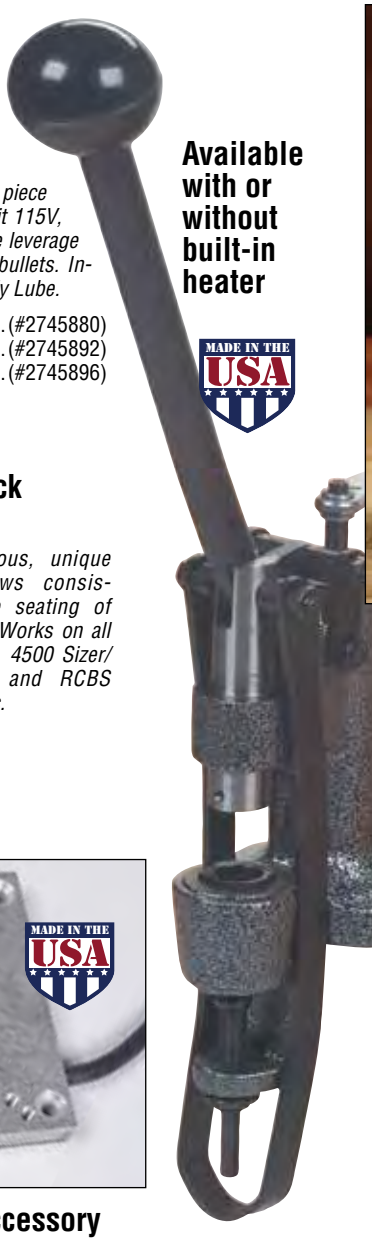
Dipper can be assembled for either right- or left-hand use!

WARNING: Cancer and Reproductive Harm
www.p65warnings.ca.gov

4500 Lube Sizer

The 4500 Lube Sizer features solid one piece bottom casting, a heating element to fit 115V, and a longer ball knob handle for more leverage for sizing and lubricating the largest bullets. Includes gas check seater and Super Moly Lube.

No Heater . . . . . (#2745880)
With Heater 115V . . . . . (#2745892)
Heating Element 115V . . . . . (#2745896)

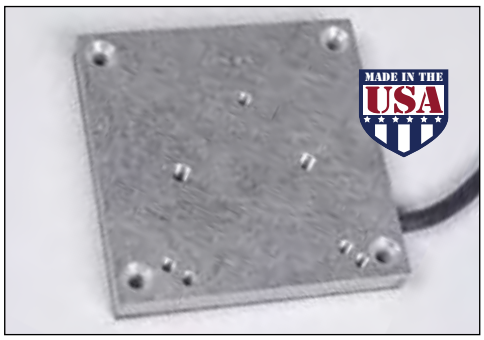


Available with or without built-in heater

Gas Check Seater

This ingenious, unique device allows consistent, square seating of gas checks. Works on all Lyman #450, 4500 Sizer/ Lubricators and RCBS Lube-A-Matic.

(#2745881)



Universal Lube Heater Accessory

Designed for today's high temperature lubes, this heats the Lube/Sizer to the right temperature for smooth, effortless bullet lubrication. The mounting plate is drilled and tapped for Lyman 450, RCBS, Saeco and Star Lube/Sizers. Plugs into standard 110 volt outlet (comes complete with mounting hardware). Note: Do not confuse with 4500 heating element.

115V . . . . . (#2745885)

Digital Lead Thermometer

The Lyman Digital Thermometer is a fast and accurate way to check the temperature of your casting alloy. The long 6" probe will work with the largest casting furnaces and keeps your hand away from molten lead. The large, easy to read display can be set for Fahrenheit or Celsius and also features a hold button to lock a reading on the display.

Thermometer measures from -50°F to 1800°F.

- **Fast and Accurate**
- **6" Long Probe to Work with Large Furnaces**
- **Easy to Read Display**
- **Fahrenheit or Celsius**

Digital Lead Thermometer . . . . . (#2867797)

Orange Magic™ Premium Bullet Lube

This hard lubricant is guaranteed to provide higher velocities with cast pistol and rifle bullets without leading. It will not melt out of loaded ammunition at high temperatures. (Recommended for use with the Lyman Lube Heater.)

Orange Magic Lube: . . . . . (#2857286)

Super Moly Bullet Lube

The Molybdenum Disulfide in this lube coats the barrel for increased velocity and improved accuracy. In addition, it virtually eliminates leading and it flows through lube sizers without heat, yet won't melt at 130°.

Super Moly Lube: . . . . . (#2857272)

WARNING: Cancer and Reproductive Harm
www.p65warnings.ca.gov

Black Powder Gold™ Lube

Formulated for long range black powder shooting. It keeps fouling soft and flows through lube sizers. It can be applied by hand to muzzleloading bullets.

Black Powder Gold Lube: . . . . . (#2857266)

Lyman Alox Lube

This is the original NRA formula developed for increased cast bullet velocities.

Alox Lube (11⁄4 oz stick) . . . . . (#2857277)

All Lyman stick lubricants are in a tube, fit the 4500 Sizer/ Lubricator and similar Sizing/Lubricating tools, including RCBS.

Pistol Moulds

Our standard offering of pistol moulds covers popular bullet designs, in double cavity style. Four cavity blocks for selected designs are also shown in the table below. Refer to the Devastator Hollow Point section for availability.

Double and single cavity mould blocks less handles
Four-cavity mould block, less handles

Specialty Pistol Moulds

#358439 – Lyman returns a famous Elmer Keith design to our mould line. Mould #358439 is Keith's extremely popular #358429 but in a hollow point version. The lighter weight hollow point bullet provided Keith with more velocity and expansion.

Rifle Moulds

Lyman rifle moulds are the standard by which all other rifle moulds are judged. The designs shown below picture gas checks where appropriate. All Lyman rifle moulds are available in double cavity only, except those moulds where the size of the bullet necessitates a single cavity (indicated below by a ★). All rifle moulds shown below require double cavity handles, regardless of the number of cavities indicated. Hollow point designs are noted above bullet.

WARNING: Melting lead and casting lead objects will expose you and others in the area to lead, which is known to cause birth defects, other reproductive harm and cancer. See Instructions on Reducing Exposure supplied with product.

.45 Conical & Plains Bullets

These offer the traditional muzzleloader a tapered bullet design for easy loading. Large deep lube grooves hold enough lube to keep fouling soft and ensure accuracy without leading.

Lyman Shotgun Sabot Slug

Lyman Sabot slugs are designed to fit standard shotgun wads and star crimped. No special roll crimping tools necessary. Loading data available in the Lyman Shotshell Handbook 5th Edition for 12 ga.

12 GA Sabot . . . . . (#2654112)
20 GA Sabot . . . . . (#2654120)

Minie and Maxi Mould

These designs are exactly reproduced from originals used over 100 years ago. The best bullets selected from American and British designs from 45 to 69 caliber.

Shotgun Slug Moulds

Available in 12 or 20 gauge, these moulds cast perfect hollow base slugs which do not require rifling. Slug moulds are single cavity only and cut into the larger double cavity block. They require double cavity handles.

Round Ball Moulds

Throw perfect, ball after ball, with a minimum sprue to ensure the kind of accuracy that target shooters have come to expect from Lyman precision moulds.

Mould Handles

Solid metal frame is easily attached to blocks with slotted screws. Hardwood handles provide a cool secure grip. Designed to provide uniform grip with different mould blocks.

Lyman mould handles are offered in two sizes.

Double-cavity handles . . . . . (#2735793)
(for all current two-cavity and single cavity moulds)
Four-cavity handles . . . . . (#2735794)

Sizing Dies

Lyman improved sizing dies now have 90° hole spacing. It's now easy to lubricate bullets even with today's hard lubricants. Lyman sizing dies also feature a tapered mouth and hardened interior ensuring alignment for perfect cylindrical shape. Interior dimensions correspond to suggested diameters for all popular rifle and pistol calibers. Refer to the chart below for proper size. Lyman Top Punches are precisely machined to fit bullet nose shape exactly. This eliminates nose deformation. Refer to Lyman's bullet mould listing for suggested top punch number. (These are interchangeable with RCBS)

Pachmayr Slide Rack Assist

The Pachmayr Slide Rack Assist is the answer for those who want extra assistance when racking the slide of semi auto handguns. Shooters with small hands, those with arthritis, and others with limited hand strength often struggle working the slide on many pistols. This innovative product fits over the slide and muzzle of your handgun, and provides a greatly increased gripping surface and significantly reduces the effort needed to rack a slide. The Slide Rack Assist is adjustable and fit most common semi-auto handguns. Fits most full size and compact semi-auto handguns, with the exception of CZ handguns, micro size handguns, and handguns with flared barrel muzzles greater than .660" in diameter.

Slide Rack Assist (Black) . . . . . (#03890)

'73 Uberti No. 2 Tang Sights

This No. 2 Sight is all steel construction and features height index marks on the aperture post, with a maximum elevation of .800 for long range shooting. It includes both a .093 quick sighting hunting aperture and a .040 Large Disk Target Aperture. Mounting screws and instructions are included. (Note: some rifles may require the drilling and tapping of the forward mounting screw.)

No. 2 Tang Sight (Model '73) . . . . . .(#3902109)

1894 No. 2 Tang Sight

This model fits most new and old 94 models plus these other historic Winchester Models: 1892 and 1894. The No. 2 will also fit other models when adjusted to full height. **(Note: does not fit new rifles with Tang safety).**

(Win. 94 Pre 2003) . . . . . .(#3902094)

1886 No. 2 Tang Sight

This legendary tang sight is also available for the Winchester 1886 lever action rifle. For original Winchester model 1886 and Browning replicas, it features height index marks on the aperture post and an .800 maximum elevation adjustment. Also included is a .093 x 1/2" quick-sighting aperture and .040 x 5/8" target disk. Mounting screws and instructions are included. **(Note: does not fit new rifles with Tang safety).**

(Winchester '86) . . . . . .(#3902105)

No. 2 Marlin Tang Sight

In 1995, Lyman introduced a new version of the No. 2 Tang for Marlin Models 336, 1894, 1895 and 30 series lever action rifles. The Marlin version features a special adapter base which allows mounting on the sight on the tang without damaging the serial number. All steel, this model has the same features and aperture discs as the 1886 model above. Mounting screws and instructions are included.

(Marlin) . . . . . .(#3902100)

57SML & 57GPR Receiver Sights

The most popular black powder receiver sight offers an immediate improvement in accuracy for the target shooter or hunter. Features 1/4 minute micrometer click adjustments for elevation and windage, quick release slide. 57SML fits perfectly on Lyman Deerstalker or Trade Rifle. Other models may require minor drilling and tapping depending on manufacturer. 57GPR fits Great Plains™ supplied with adapter.

57SML . . . . . .(#3090114)
57GPR . . . . . .(#3090112)

#17A Muzzleloader Front Sight

The ideal companion for the 57SML receiver sight, the 17 comes complete with a set of 8 interchangeable inserts (see Page 48). The 17AML fits low to the barrel with a height of .494". The 17ATC fits rifles that use a tall vernier type rear sight. The 17ATC has a height of .852". All 17's are machined from steel and have a standard 3⁄8 dovetail. (Except 17AEU which has a European dovetail for Investarm muzzleloaders. Lyman/Pedersoli muzzleloaders use the standard 3/8" dovetail sights.).

Henry Lever Action Rifle No. 2 Tang Sight

Lyman is proud to announce the addition of a #2 Tang Sight for the popular Henry line of lever action rifles. Like our other folding tang sights, this Henry model features all steel construction, elevation locking sleeves, and both hunting and target style apertures. The Henry #2 Tang Sight fits these models:

H006 – Big Boy, Big Boy Carbine, Big Boy Silver
H009 – All-Weather 30-30
H010 – All-Weather 45-70
H012 – Big Boy All Weather, Big Boy Steel
H018 – Lever Action 410 Shotgun

Henry Rifle No. 2 Tang Sight . . . . . .(#3902095)

Tac-Mat™ Long Range Shooting Mats

Lyman's Long Range Shooting Mats are perfect for long range shooting, target or tactical shooting, and varmint hunting. They offer a large footprint that will work well for even the tallest shooter, yet they roll up to a compact, easy to transport size. These comfortable mats will protect you from dirt, rocks, wet surfaces, insects, hot truck beds, gravel or pavement. 6' x 3' (Tail adds 6")

Mats will be offered in two versions, a basic design in either black or FDE; or a heavy-duty (HD) version in black. The basic model features 600D construction, with a carry handle and shoulder strap. The shoulder strap can also be used as a bipod stop. The HD version features 1000D construction, elbow pads and a built-in bipod stop, as well as a carry handle and shoulder strap.

L.E. Range Kit

This L.E. Range Kit is designed to give the Law Enforcement officer, competition shooter, or recreational range-goer everything they need to take their firearm from the firing line to the cleaning table. This kit includes a high quality range bag, hearing and eye protection, a QwikDraw bore cleaning rope, and A-Zoom Snap Caps for dry fire and shooting drill practice. There is also a pick and brush set, Butch's Bore Shine firearm cleaning solvent, patches and a full pistol cleaning kit with cleaning rod, brushes and jags. No other kit offers all of these items for such an affordable price and quality. Save time and money for the range by picking up everything you need in one handy kit.

- **L.E. Range Kit includes:**
- **Patches 2-1/4" Square - 35-45 Cal (150 Pack)**
- **Butch's Bore Shine 3.75 oz**
- **Pistol Cleaning Kit**
- **A Zoom Blue Value 10/pack**
- **Range Bag**
- **Eye Protection**
- **Ear Protection**
- **Qwik Draw™ Barrel Cleaner**
- **Pick and Brush Set**

LE Range Kit . . . . . .(#7837825)

Range Kit - Pistol Starter Set

Lyman's Pistol Starter Set gives shooters all of the basic accessories that they need to get started in pistol shooting. The Pistol Starter Set is housed in a durable, tough 600D nylon shooter's carry bag that is a must for transporting your equipment to and from the range. Shooting bag dimensions are 15.7" X 8.85" X 10.23". Inside the bag, are all the basics that you need for eye and ear protection. The set contains quality ear protection with 25DB noise reduction, eye protection, and also a QwikDraw™ barrel cleaner for cleaning your pistol afterwards. The QwikDraw is a fast, all-in-one cleaning tool that eliminates the need for traditional cleaning rods and patches. Best of all, the total package offers a great cost savings over purchasing the items individually.

Match Bag

Lyman Bag Jack™

How often do you set-up shooting rests at the range, only to find that your rifle isn't at the proper height; or the seat is too high for the bench? Lyman's Bag Jack is designed to make it easy to adjust the elevation of your rifle and bring it into line with your target, while also allowing you to maintain a comfortable shooting position. Compact, stable, and infinitely adjustable, the Bag Jack is the perfect platform to set up your shooting rest at the range. Create the optimal shooting position under any shooting conditions. The Bag Jack corrects the height with a simple turn of the adjustment knob. The lift is made from sturdy aluminum and steel components and has a non-slip textured platform. The lift is 10" x 10" so it can accommodate the largest size rests, and collapses for unmatched portability.

Bag Jack . . . . . (#7837810)
Bag Jack and Match Bag Combo . . . . . (#7837815)

Lyman Shooting Bags

Lyman is proud to introduce a whole line of shooting bags to help create a stable shooting platform in almost any situation. All of our Shooting Bags are made from heavy duty, abrasion resistant 600D nylon with micro-suede padding on rifle contact points. They are also equipped with a non-slip rubberized base to keep them stable and in place during use. The bags are supplied filled with a ground plastic material which holds its shape well and is light enough for easy carrying. Filling can be adjusted for optimal volume.

Crosshair Front Bag

Crosshair Rear Bag

Match Bag

The Match Shooting Bag is shaped to tightly squeeze your rifle and give you a stable and secure shooting platform. The bag is equipped with a sturdy carry strap and an adjustable tensioning strap to adjust elevation. Dimensions: 8"W x 10"D x 6 ½"H

Match Bag . . . . . (#7837802)

Crosshair Combo Set

The Crosshair Front Bag provides a stable front rest for any rifle. Dimensions: 6"W x 4 ½"D x 7 ½"H

The Crosshair Rear Bag features a notched design which holds the rifle stock in place. Dimensions: 5 ½"W x 5"D x 5"H

The Crosshair Combo Set includes both the Front and Rear Bags that work perfectly together to create a customized shooting platform to meet your needs. The front and rear bags can also be clipped together for easy transportation.

Crosshair Combo Set . . . . . (#7837805)

AccuSight

Lyman's AccuSight Pistol Sight Tool sets the standard by which all others will be judged! Proudly made right here in our Middletown CT plant, the AccuSight tool is CNC machined from billet aluminum. It can adjust, install or remove front or rear dovetail pistol sights, and has a machined pocket for 1911 slides. The AccuSight features 4 horizontal and 1 vertical slide clamps, full range height adjustment, and 1/32" increment windage adjustment scale on the sight pusher. The large sight pusher handle provides plenty of torque to move even the most stubborn sights. The AccuSight Pistol Sight Tool is a must for gunsmiths, competition shooters, or anyone who wants to properly work on pistol sights.

- **Adjusts, install or remove dovetail pistol sights**
- **CNC machined aluminum body**
- **4 horizontal and 1 vertical slide clamps**
- **Includes straight and angled sight pusher blocks**
- **1/32" increment adjustment scale**
- **Large sight pusher handle allows moving stubborn sights**
- **Works with most pistols with front or rear dovetailed sights**

MADE IN THE USA

45pc. & 68pc. Lyman Master Gunsmith Tool Kits

Pachmayr's screwdriver sets provide all the bits needed by gunsmiths and all those who work on firearms. These complete sets come with bits for slotted screws, hex screws, 6-lobe screws, and Phillips screws; in addition to an assortment of specialty bits. The specialty bits include a Weaver scope ring bit, Glock front sight bit, 1911 grip bushing bit, as well as .062", .093" and .118" pin punches. The sets also include a ratchet wrench so the maximum torque can be applied to those tough-to-remove screws. The bits for slotted screws are hollow ground, so they properly fit screw slots and prevent cam-out which creates ugly, damaged screw slots. The sets are packed in compact, convenient storage cases.

45 Piece Set Contains

- **12 – hollow ground bits for slotted screws**
- **15 – hex bits in standard and metric sizes**
- **6 – Phillips bits, including two long bits**
- **3 – 6-lobe bits**
- **6 – specialty bits**
- **1 – extension**
- **1 – ratchet wrench**
- **1 – handle**

Pro Drive Torque Wrench

The Lyman Torque Wrench is a must for accuracy minded shooters and gunsmiths. The Lyman Torque Wrench will allow you to safely and correctly attach scope bases, scope rings, action screws and other fasteners to firearms. Correct screw torque prevents damage to screw threads, screw heads, threaded surfaces and optics. Consistent screw torque will also help get the best accuracy from your firearm.

- **Includes straight blade, hex, and 6-lobe bits, plus 1/2" socket and socket adapter**
- **Padded storage case**
- **Adjustable up to 80 inlb.**

Pro Drive Torque Wrench . . . . . .(#7031300)

Electronic Digital Trigger Pull Gauge

Lyman's revolutionary Digital Trigger Pull Gauge is designed to be the fastest and most accurate trigger pull gauge available. The state-of-the-art strain gauge technology allows for accuracy of 1/10 ounce/2 grams. The gauge will read to a maximum 12lb/5.4kg and features a large, easy-to-read LCD display. To operate, simply press the ready button, hook the roller around the trigger of your firearm and pull until the trigger releases. (Make sure firearm is not loaded.) The gauge will display and hold the exact trigger pull weight. For a new reading, just press the ready button and repeat. The gauge will also give you an average of up to the last 10 readings. Switch from ounces to grams with the push of a button. The fully adjustable rod works on any firearm. This is the perfect tool for target shooters, silhouette shooters, gunsmiths, hunters, or anyone who wants to adjust their trigger pull weight accurately and easily. Works with two included AAA batteries.

- **Fully Adjustable Trigger Pull Rod allows use with all firearms**
- **Accurate up to 1/10 ounce/ 2 grams**
- **Ergonomic Design**
- **Roller "Self-Centers" on Face of Trigger**
- **Memory for Averaging up to 10 pulls**
- **Easy to read LCD Display reads in (pounds/ ounces) or Metric (kilograms/grams)**
- **Ensures safe and accurate trigger adjustments**

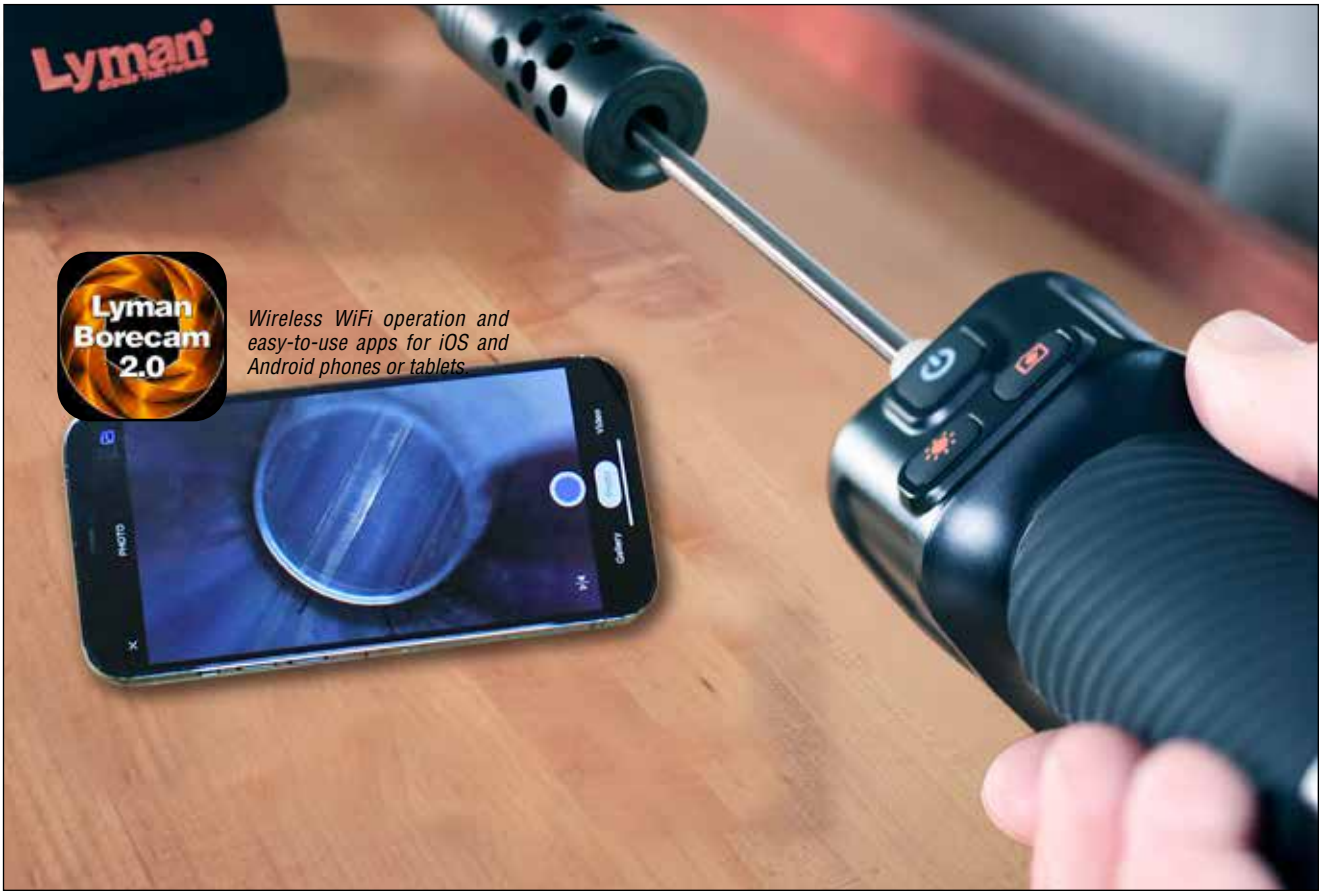
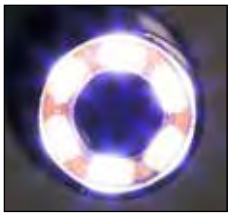
BORECAM™ 2.0 Wireless Digital Borescope



Wireless WiFi operation and easy-to-use apps for iOS and Android phones or tablets.

Unit is rechargeable and is charged by plugging into a usb port on a PC or standard phone charger (not included).

1920 x 1080 resolution micro camera technology and bright lighting combine to provide crisp clear photos and videos.



Inspect your barrel for wear, throat erosion, tool marks, rifling, chamber damage and fouling.

Scope fits 22 caliber and larger barrels and rod is 26" long to provide a view of the entire inside of the barrel.

Borecam® 2.0 Wireless Digital Borescope

Lyman's Borecam 2.0 borescope takes barrel inspection to a whole new level! The wireless Borecam 2.0 produces its own WiFi signal which sends super clean and detailed images directly to your phone. No wires or monitors to get in the way during use. Carefully inspect your bores for wear, throat erosion, tool marks and other rifling damage, as well as copper or lead fouling.

The Borecam 2.0 will fit 22 caliber and larger barrels and is now equipped with a longer 26" rod. In addition to taking photos, the Borecam 2.0 now takes sharp, clear videos. The Borecam 2.0's easy-to-use app makes storing and retrieving photos and video simple. Apps are available for iOS and Android phones and tablets.

Borecam includes: Rod with mounted camera, 5 interchangeable 90° Mirrors for various calibers, and usb cord for charging. NOTE: Unit is rechargeable and is charged by plugging into a usb port on a PC or standard phone charger (not included).

- **Wireless WiFi operation**
- **1920 x 1080 Resolution for a clean, sharp image**
- **Fits 22 caliber and larger barrels**
- **26" long rod**
- **Can take photos and video**
- **Easy to use apps for iOS and Android phones or tablets**

The Original Butch's® Bore Shine

Designed by well known bench rest competitor Butch Fisher, this non-abrasive chemical solvent is specifically designed to remove all forms of bore fouling including copper with an absolute minimum of effort and no damage. It will quickly remove carbon build-up, even in difficult to clean areas like the chamber throat. It also removes lead, wax and even plastic shotgun wad build up.

A significant improvement over conventional solvents, Butch's can also control the copper fouling by pushing a few patches soaked with Butch's prior to shooting. Butch's is safe to use on normal and stainless barrels. It is a true "All in One" Cleaner. Try it and you will never use anything else!

Butch's Bore Shine 3.75 oz . . . . . (#02937)
Butch's Bore Shine 8 oz . . . . . (#02953)
Butch's Bore Shine 16 oz . . . . . (#02941)

WARNING: This product can expose you to chemicals including 1,2,4 Trimethylbenzene, which is known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

Butch's® "Triple Twill"™ Patches

Like Butch's bore shine, these patches offer superior performance. They hold more liquid and remove fouling faster than ordinary cotton flannel patches. A special fabric used in laboratories and cleanrooms, Triple Twill's special weave has hundreds of tiny "ridges and drop zones" which scrub and capture fouling residues far better than other patches. Butch's Triple Twill patches don't shed lint and have been specially treated for maximum absorbency.

Butch's® Gun Oil

U.S. Military proven formula

Butch's Gun Oil is an ideal bore protectant and conditioner, especially when used with Butch's solvent. It is a proprietary blend of natural oils that withstands the intense heat, friction and pressures produced in a firearm's chamber and bore. The product's rust inhibitor provides the absolute maximum in corrosion protection for both regular and stainless steel firearms.

Butch's Gun Oil 4oz . . . . . (#02948)

Butch's® Black Powder Bore Shine

Benchrest clean for black powder guns

Butch's Black Powder Bore Shine was developed specifically for the Black Powder Shooter who asked for a Better, faster way to clean their Rifles. Butch's Black Powder Bore Shine comes from a special cleaning solvent used by the U.S. Military. This Black Powder bore cleaner, like the original Bore Shine does it all. Removes Powder, Lead and Plastic Fouling faster than any other cleaner. Best of all it is odorless, non-toxic, non-flammable, biodegradable and protects against rust and corrosion. You can't find a better cleaner for black powder anywhere.

Black Powder Bore Shine 8oz. . . . . (#02949)

WARNING: This product can expose you to chemicals including Methyl Pyrrolidone, which is known to the State of California to cause cancer and/or birth defects or other reproductive harm. For more information go to www.p65warnings.ca.gov

Universal Bore Guide Set

Lyman's Universal Bore Guide Set directs and centers your cleaning rod and jag through the chamber. This protects both the chamber and the bore from abrasion by the cleaning rod during regular cleaning. "Universal" means that this set will fit most centerfire bolt actions and even includes a special adapter sleeve for the AR-15.

Precision machined from durable, anodized aluminum, the set comes with interchangeable tips that cover bore sizes from.17 up to .416 and the thread-on nozzles prevent the guide's sticking in the chamber. The guide's specially machined port makes applying solvent to the inserted cleaning patch easier and neater than trying to push a wet patch into the open end of the guide. The Universal Bore Guide Set works with most cleaning rods like Lyman's Universal Cleaning Rod System and Jag and Brush Set.

Universal Bore Guide Set (.17 to .416) . . . . . (#04045)

Lyman's Pick and Brush Set

Allows you to clean out all those hard to reach grooves and corners that can't be reached with patches. The picks come in a variety of shapes so that you'll have just the right size to fit into those tight spots. A nylon utility brush is also included for scrubbing away tough powder residue. A "must have" for your cleaning supplies and range bags.

Pick and Brush Set . . . . . (#04038)

Lyman "Brass Tapper" Hammer

For gunsmithing and other delicate jobs, this hammer has three interchangeable heads including nylon, brass and steel. For delicate tapping, a knurled brass drift pin stores inside the handle.

Brass Tapper . . . . . (#7031290)

Pistol Punch Set

For the specialized needs of pistol work, Lyman has put together a more economical assortment of punches. This basic set utilizes the same universal handle as the Gunsmith's Set with the following punches: 1/16", 3/32", 1/8", 5/32" and brass drift punch.

Pistol Punch Set . . . . . (#7031271)

Roll Pin Punch Set

Ideal tools for removing hollow, split roll pins. Special round nose design allows proper alignment of punch in roll pin to prevent damage to fine mechanisms such as trigger group parts. Roll Pin Punches come in 1/16, 3/32, 1/8, 5/32 sizes.

A-Zoom® Variety Packs

Practice Makes Perfect

We've listened to your requests, and paid attention to the folks who buy our A-Zoom Snap Caps the most, and now we've tried to make things as easy as possible for some of our most common customers by putting together the calibers you need into handy variety packs.

NRA Instructor Pack:

Designed to give NRA instructors all the most popular handgun training calibers in one convenient pack. Includes: (3) .22LR, (2) .380, (2) 9mm, (2) .40, (2) .45

A-Zoom Variety Pack NRA instructor (#16190) $34.98

Military/LE Pack:

An all-inclusive combination of all the most common calibers used by today's military and law enforcement groups. Includes: (2) 9mm, (2) .40, (2) .45, (2) .223, (2) .308, (2) 12ga.

A-Zoom Variety Pack Military/LE (#16185) $49.98

Top Rifle Pack:

This pack includes all the most commonly used rifle training calibers, including rimfire. Includes: (2) .223, (1) .308, (3) .22 (plastic), (1) .30-06, (1) 7.62 x 39mm

A-Zoom Variety Pack Top Rifle . . . . . (#16195)

StrikerCaps

Our extremely popular A-Zoom Snap Caps are the best choice for safety training, function testing and dry firing practice. Their rugged design has proven to withstand thousands of dry fires while still protecting the firing pin. One drawback with dry firing snap caps however is when they are used in striker fire type pistols. These firearms require that the slide be drawn back to cock the pistol, which then extracts and ejects the snap cap from the pistol. Our StrikerCaps solve this problem. StrikerCaps are made without a rim and are equipped with a centering o-ring which grips the chamber walls and keeps the snap cap in place in the chamber. Once it is chambered, simply rack the slide to cock the pistol. StrikerCaps will absorb the firing pin hit just like standard A-Zooms, however will stay in place for quicker, easier dry fire practice. StrikerCaps are available for 380 Auto, 9mm, 40 S&W and 45 ACP.

StrikerCap 380 Auto 2/pk . . . . . (#17101)
StrikerCap 9mm 2/pk . . . . . (#17102)
StrikerCap 40 S&W 2/pk . . . . . (#17103)
StrikerCap 45ACP 2/pk . . . . . (#17104)

A-Zoom® 22 Rimfire Action Proving Training Rounds

These .22 Rimfire dummy rounds are ideal for gun testing and shooter training. Not snap caps, but rather precisely dimensioned, functional dummies; A-Zoom Training Rounds are CNC machined from solid aluminum and hard anodized. A-Zoom .22 Rimfire dummies are widely used for hunter education and teaching safe firearms handling. Gunsmiths rely on them, too.

22 LR Training Rounds 12 p/pack . . . . . (#12206)
22 LR Training Rounds 6 p/pack . . . . . (#12208)
17 HMR Training Rounds 6 p/pack . . . . . (#12202)
22 Win Mag Training Rounds 6 p/pack . . . . . (#12204)

Rugged .22 Rimfire Snap Caps

Dry fire .22 LR Rimfire safely without chamber damage.

Packed in handy 24 packs, these Pachmayr snap caps are precisely molded from a resilient polymer for many safe, damage-free hammer drops. After extensive experimentation and testing, these tough, polymer snap caps are proven to deliver long life and many hammer drops. In fact, testing has shown that these snap caps can withstand up to 5-times as many hammer drops as the other "disposable" rimfire snap caps.

.22 Rimfire Snap Caps . . . . . (#03200)

A-ZOOM®
Precision Training Rounds for Dry Firing
MADE IN THE USA
#1 Choice of Law Enforcement Professionals
SHOTGUN, RIFLE, REVOLVER & PISTOL CALIBERS

For safety training, function testing or safely de-cocking without damaging the firing pin, A-Zoom training rounds are much more than conventional snap-caps. They are precision CNC machined from solid aluminum to precise cartridge dimensions, then hard anodized for ultra-smooth functioning and long life.

In addition, each round has A-Zoom's remarkably durable "Dead Cap" proven to withstand over three thousand dry fires while protecting the firing pin. A-Zoom Snap Caps last over 30 times longer than conventional plastic examples and are available in over 120 sizes from .22 Hornet to the .50BMG.

The TRIUS® 1-Step™

A TRIUS Original One easy step cocks & releases target, almost effortlessly.

One person can throw and shoot! The most popular member of the TRIUS line, the One Step has become our best seller, whether you enjoy shooting alone or with a group. The TRIUS One Step is almost effortless to use. Arm is set and targets are placed on arm without tension. Step on pedal to put tension on the arm and release targets in one motion. Aluminum arm plus oil impregnated bushings deliver years of trouble-free shooting. Throw regulation singles plus piggyback doubles. High Angle Target Clip Included. Large knobs for adjusting tension and vertical angle make the TRIUS One Step trap fully adjustable without tools.

Trius 1-Step . . . . . (#10201)

TRIUS® Birdshooter 2™

TRIUS Quality Priced for the Recreational Shooter!

The TRIUS Birdshooter has many of the fine features of our original foot trap but priced for the occasional shooter. Don't let the low price fool you, this trap has TRIUS quality and performance. A bit lighter weight than the original TRIUS Trap, this trap will out perform other traps in its price range. Regulation singles and piggyback doubles make this an excellent choice for the beginner and/or experienced shooter. Can be held with foot or tire mount (bolt furnished). Aluminum arm plus oil impregnated bushings give years of trouble-free shooting. A High Angle Target Retainer is included for adding variety to your shooting. Fully adjustable without tools.

Birdshooter 2 . . . . . (#10220)

92S The Original TRIUS® Trap

Built for the Serious Shooter!

For more than 60 years the Original TRIUS Trap has been the trap that others have been judged by. The trap can be adjusted to throw beyond regulation distance. In addition, it throws doubles including piggyback doubles. Held in place with foot or mounted to a tire (bolt furnished), the trap features a High Angle Target Retainer for those challenging high angle targets. Large adjustment knobs make the TRIUS trap fully adjustable without tools.

Shock Shield

The Shock Shield is the simple solution to reducing recoil in a variety of rifles and shotguns. No need for different size pads, as its one size design stretches and contours to a variety of stock shapes and dimensions. Filled with a pocket of soft gel, felt recoil is greatly reduced. Easy on and easy off. Simply stretch it over the butt of your firearm. Keep one in your range bag so you always have it handy!

- **Soft gel pad for greatly reduced recoil**
- **One size stretches to fit most rifles and shotguns**
- **Easy on and easy off**
- **Won't harm stocks**
- **Non-slip pad face texture**

Shock Shield . . . . . (#04428)

Renegade® Slip-On Recoil Pads

Comfort doesn't have to cost you an arm (or a shoulder)!! Pachmayr has been the number one source for recoil pads for many years. Our newest line of slip-on pads offers excellent recoil absorption, a clean modern appearance, and 1" of additional length of pull, all at a great price. The pads are available in black and brown, and in small, medium, and large sizes. Comfort and performance doesn't have to be expensive.

Small Brown . . . . . (#04423)

Large Black . . . . . (#04422)

Decelerator® Slip-On Recoil Pads

Combining the advanced recoil control of the popular Decelerator® internal design and material with Pachmayr's unique insert, this great looking slip-on recoil pad is unmatched by any other hunting pad. In addition, the pad's material and design make installation easier than ever. A Pachmayr original design, the Speed-Mount insert gives hunters and target competitors alike the benefit of smooth, snag-free mounting while delivering maximum recoil reduction.

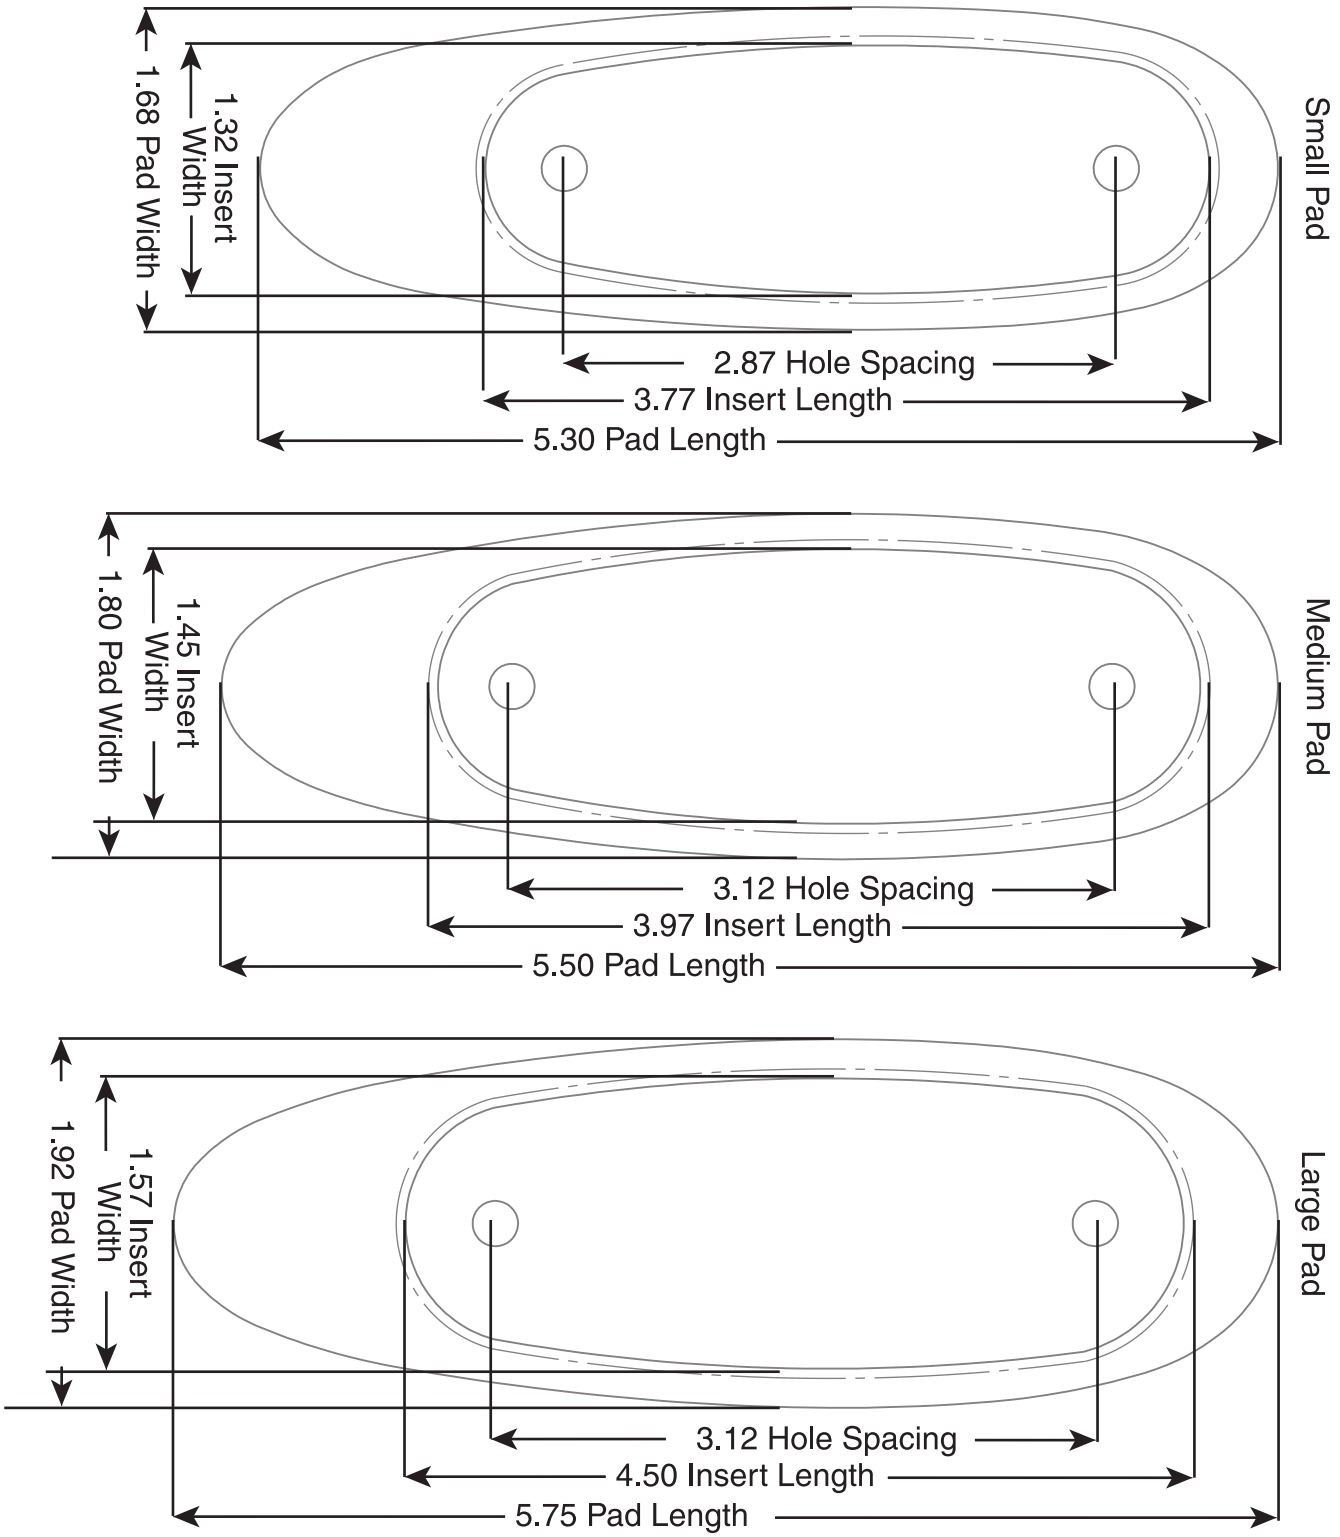
For complete installation instructions and important dimensions,
please refer to the information on the recoil pad package



Find the Pachmayr® pad that meets your needs.

Pachmayr has a pad that will fit the needs of almost every shooter. The following suggestions will help you pinpoint your choices and find the pad for you. Template samples are available on our website to help you select the right size pad to fit your stock.

1. Select the Shape

What do you want the pad to do? How will you be using the rifle or shotgun? This will determine the face shape for optimum control.

Skeet
A convex pad design to make mounting the gun smooth without snagging. The skeet face is the best choice for wing shooting, skeet, or sporting clays.

Field
A combination of convex and concave shapes designed as a compromise for fast mounting and positive control.

Trap
A concave pad designed to provide a positive "hugging" grip on the shoulder. Specifically designed for Trap and Rifle shooting.

How much recoil absorption do you need? Pachmayr pads are available for all ranges of applications, from light to heavy recoil.

2. Consider the Core Design

Side Core
A side core design with the exposed XXXX configuration is the ultimate in recoil absorption because of the "shock absorbing" effect offered by the compressing "X" pattern. These pads have a solid base and are the best choice for those who may prefer a soft sided pad.

Bottom Core
A bottom core design is softer in the middle and has firmer sides to absorb the sharpest recoil. A classic appearance and availability in Decelerator® material makes this design the most popular and most copied Pachmayr design.

3. Pick the Face Texture

How much control do you require in your shoulder? Will you be quick mounting or secure in your position for careful sighting? Face Texture will also play a role in your selection. Pachmayr offers several textures to optimize your shooting.

Leather | **Ribbed** | **Line Checkered** | **Stippled** | **Basket weave** | **Grooved** | **Pigeon**

Light Face Texture
Leather and ribbed faces are "light" face textures. These will maximize your speed when mounting.

Medium Face Texture
Line Checkered and stipple are "medium" face textures; best for use in field applications.

Heavy Face Texture
Basketweave and grooved are "heavy" face textures; best for precision shooting and big bore rifles. Our ultimate heavy design is pigeon, used ideally in live bird shoots and trap.

4. Find the Right Size Pad

Note: Pad and insert dimensions can vary for pad models.

1. *It is best to measure your stock with the butt plate or old pad removed.*
2. *Always choose the pad size that is larger than your stock width and longer than the stock length to allow for toe angle.*
3. *Pads with inserts cannot be trimmed under the minimum width noted.*
4. *Keep in mind, it is not necessary for the pad holes to match your stock, since new holes should be drilled.*
5. *Complete size dimensions for each pad are printed on packaging.*
6. *Each pad comes with complete instructions.*

Stock Spacers

Need to add some length to your stock? Pachmayr spacers add approximately 1/4" each. Available in black and White Line® styles. Add up to four when installing a new pad or adding between existing pad and stock. White Line® accent spacers are available in 1/16".

- *Easily add length to stock*
- *White Line® and Black base styles*
- *Add up to 1" in length*
- *Gunsmith required*

Black Spacer . . . . . (#02455)

Renegade® Wood Laminate Pistol Grips

Pachmayr's deluxe wood laminate pistol grips are the ultimate in style and function. The wood laminate panels are highly polished and checkered. The Rosewood laminate provides classic good looks. The precision CNC cut checkering patterns provide a secure grip while maintaining the grip's attractive appearance.

- **Polished wood laminate with tasteful checkering**
- **Available in Rosewood**
- **Improves appearance and function**
- **Available for most popular semi-auto models**

G10 Tactical® Pistol Grips

G-10 material is a fiber glass based epoxy resin laminate. It is an extremely tough and durable material that is impervious to moisture, weather or chemicals, making it a perfect material for handgun grips. The multiple layered construction allows the use of different colors to be added to the grips, which create attractive patterns as it is machined. G10 Tactical pistol grips are available in two textures, our coarse Grappler pattern or checkered.

American Legend™ Grip Models for 1911

With proven recoil absorbing rubber panels, comfortable finger grooves and attractive wood trim, Pachmayr's popular American Legend Grips offer a range of eye-catching colors. Choose Rosewood, Charcoal Silvertone, or Heritage Walnut laminate. All feature the popular American Legend wraparound design with relief cuts for ambidextrous safeties and mainspring housing pin cut-out. Whether for blued, stainless or any finish, these American Legend Grips will enhance both the looks and handling of 1911.

1911 Diamond Pro Grip

Building on the success of our popular Diamond Pro revolver grips, Pachmayr is proud to announce the addition of the 1911 Diamond Pro grip. Our first Diamond Pro semi-auto pistol grip is made from Pachmayr's proprietary blended rubber compound designed for enhanced shooting comfort and control. It has an aggressive, yet comfortable texture allowing for optimum recoil control and is equipped with low profile finger grooves which provide fast, positive hand placement. If desired, the front strap finger groove section could also be trimmed away to allow for use as grip panels. This pistol grip sets the standard for comfort and control, along with a stylish appearance. Fits all standard full size 1911 frames with standard or ambidextrous safeties.

- **Sets the standard for comfort and control**
- **Proprietary rubber compound blend**
- **Fits ambidextrous safeties**
- **Low profile finger grooves for fast, positive hand placement**
- **Sleek, modern appearance**

Diamond Pro Grip 1911 . . . . . (#02470)

Custom Series Pearl Pistol Grips

Pachmayr's Brilliant Pearl grips add the ultimate custom look to your 1911. Our Brilliant Pearl grips replicate the appearance and feel of actual mother of pearl but at a much lower cost. Brilliant Pearl grips are strong and weather-resistant, as well as offering a smooth gripping surface which will not snag on clothing for concealed carry. Brilliant Pearl grips are available in both Black and White colors and have a recess cut for 1911's with ambidextrous safeties.

Signature™ Grips With Backstraps

Pachmayr Signature Grips feature our unique full wrap-around design and are made from rubber specially formulated for use on semi-automatic pistols. This rubber compound gives them a feel that is unmistakably Pachmayr. Built-in steel inserts ensure they maintain their shape. Signature Grips are the overwhelming choice of competitive shooters and law enforcement personnel alike. Available in the widest variety of models for most of the popular semi-automatic pistols. Each is designed for a specific pistol and its anticipated use. (See chart below.)

Signature™ Grips Without Backstraps

These models of Pachmayr Signature Grips also feature our unique full wrap-around design, are also made from rubber specially formulated for use on semi-automatic pistols, but are supplied without backstraps so they can be used on pistols such as the Government .45 models that utilize grip safety mechanisms. They are offered in the same styles as the Pachmayr Full Signature Grips; Checkered, Thumb Reduction Combat, Sculptured Thumb Reduction Combat and Combat Plus finger groove. (See Chart below.)

TACTICAL GRIP GLOVES®

These "Stretch-to-fit" Grip Gloves are custom molded for each top-selling pistol model. This makes them ideal for the popular polymer frame handguns which have no replacement grips available.

In addition, Pachmayr Decelerator® material delivers proven recoil reduction and enhanced control that no other slip-on can match. They also have the right shape and flexibility to make installation "a snap" – no trimming, tearing or hard work - just a perfect fit.

Finally, the distinctive ventilated side panels and custom fit provide more instinctive gun orientation, enhanced control and they look more professional than the old, one-size-fits-all rubber band models. Tactical Grip Gloves are the only ones that "fit like a glove."

Tactical Grip Gloves
See part numbers under individual photos

Concealed Carry

Our concealed carry models feature custom left and right handed palm swells to make the gun fit your hand perfectly.

Tactical Grip Glove® for Mossberg Shockwave & Remington Tac-14

The Mossberg Shockwave and Remington Tac-14's have become two of the most popular weapons to be introduced in recent years. Their 14" barrels and unique birds head style pistol grip makes them fast and maneuverable, however they do also pack quite a kick. With this in mind, Pachmayr has created a Tactical Grip Glove developed specifically for these firearms. This slip-on grip is easy to install and offers much better control as well as reducing recoil of the Shockwave and Tac-14. The grip features a single finger positioning groove, non-slip texturing and a thicker padded area to give the palm of your hand better protection from recoil.

Tactical Grip Glove for Moss Shockwave & Rem Tac 14 . . . . . .(#05103)

Gripper Universal Slip-On

Gripper® Slip-On Grip

Pachmayr's Gripper Slip-On Grip has a unique design and contour, allowing it to fit a large variety of popular medium to full size pistols. The Gripper Slip-On features an attractive non-slip texture along with palm swells for great fit and control. Molded in trim lines also allow you to custom fit the grip to your pistol. Perfect for Glock and other polymer frame pistols.

- **Optimal size to fit a large variety of pistols.**
- **Gripper Slip-On Grip can be trimmed for a customized fit and feature molded trim lines to provide a clean, even cut.**
- **Comfortable finger grooves offer increased control.**
- **Backside of finger grooves are recessed to allow use on pistols with or without finger grooves, perfect for all generations of Glock's.**
- **Non-slip texture and palm swells for great fit and control.**
- **Made from a tough rubber compound, the Gripper Slip-On is impervious to weather, sweat, oils & solvents.**
- **Perfect for Glock and other polymer frame pistols.**

This grip will fit the following pistols (some models may require trimming):

Glock 19, 23, 25, 32, 38
Glock 17, 20, 21, 22, 31, 34, 35, 37

Aluminum Competition Speedloaders

Pachmayr's revolver Speedloaders set the standard for quality and performance. Unlike competitive models which are made of plastic, Pachmayr's Speedloaders are precision CNC machined from solid aluminum. The Speedloader bodies are cut in a polygon shape which produces the smallest possible outside dimensions and allows them to easily fit compact revolvers. The Speedloaders are also equipped with a rattle eliminating o-ring which contacts the cartridge bases and firmly holds the rounds in place. Cartridges are released with a simple twist of the large knurled knob. Speedloaders are available for the S&W "J" frame/Ruger LCR, as well as S&W "K" and S&W "L" frame revolvers.

- **Available for .38/357 S&W "J" frame/Ruger LCR, as well as S&W "K" and S&W "L" frame revolvers (These Speedloaders will also fit other popular models. See package for details.)**
- **CNC machined from solid aluminum**
- **Polygon shape for the smallest outside dimensions**
- **Cartridges are held firmly with no rattle**
- **Simple twist knob cartridge release**

Presentation Grips

The first grip design developed by Frank Pachmayr. This popular grip has been the mainstay of our line since the beginning and it remains popular. Pachmayr Presentation Grips feature our unique design, classic styling, and a magnificent finish with deep checkering for control and a superb shiny finish.

Gripper® Grips

Pachmayr Gripper Grips for revolvers are made from a specially formulated rubber compound optimized for control and recoil absorption. The finger groove style is popular for combat shooting and hunting. A slight palm swell fills the hand but is not so large as to be uncomfortable. Gripper Grips are fully checkered for appearance as well as for control. Designed for correct hand position.

Decelerator® Grips

All guns recoil, and recoil affects your accuracy, control, and overall shooting enjoyment. For those shooters who want the most out of their shooting experience, Pachmayr offers the Decelerator® Grips — 50% softer than a regular grip. The Finger Groove Decelerator® Grip is designed to control the recoil produced by a powerful revolver. Combined with recoil absorbing air cushions along the backstrap, this grip is ideal for shooters that require the ultimate control and shooting comfort.

Gripper® Professional Grips

These are smaller versions of our Gripper models. The design has an open backstrap and the overall shape has been downsized. This design makes it possible for shooters with small hands or shorter fingers to better reach the trigger and obtain the advantages of a reliable combat-style Pachmayr grip.

Compac™ Grips

Pachmayr Compac Grips are made from a specially formulated black rubber compound and are designed to maintain concealability. Although compact in design, Compac Grips still give a shooter total control, Compac Grips provide a secure, non-slip finish. That's why they are the plainclothes officer's preferred way to a more positive grip without compromising concealability.

Compac™ Professional Grips

These are smaller versions of our Compac models that provide an even greater degree of concealability. The design has an open back strap and the overall shape has been downsized. Like the Gripper Pro series, this design makes it possible for shooters with small hands or a shorter finger to better reach the trigger and obtain the advantages of a reliable Pachmayr grip. Available in models to fit many popular revolvers.

Diamond Pro™ Revolver Grips

Pachmayr's Diamond Pro Series revolver grips have taken the revolver-shooting community by storm! These "Diamond Plate" textured, one-piece grips transform popular revolvers. The soft grips replace standard factory models by easily slipping over and fully wrapping around the revolver's grip frame – with no gaps or seams.

This line of revolver grips has set a new standard with a modern look, and the extreme comfort and control shooters have come to expect from Pachmayr.

These grips fill the hand comfortably, with a natural feel and point. The unique shape is covered with our "Diamond Plate" texture, which gives you rugged good looks and absolute control of your revolver, even under the heaviest recoil. Pachmayr's proprietary blended rubber grip compound is formulated to give you the long lasting soft feel you expect and the best in recoil reduction you deserve.

The Diamond Pro series offers models to fit the popular line of Ruger Revolvers, including the Ruger LCR, the SP101 and the GP100, as well as Taurus Public Defender (standard and polymer frames), and the Smith & Wesson "J", "K&L", and "N" Frame Round Butt models.

- **S&W "N" Frame Round Butt (#02480)**
- **S&W "K&L" Frame Round Butt (#02479)**
- **S&W "J" Frame Round Butt (#02478)**

- **Ruger GP100 (#02484)**
- **Ruger SP101 (#02483)**
- **Ruger LCR (#02482)**

Renegade® Wood Laminate Revolver Grips ⚠

Pachmayr's Deluxe Laminate Revolver Grips are the ultimate in style and function. The highly polished wood laminate panels are offered either checkered or smooth. The Deluxe Laminate Grips are available in two colors, Rosewood and Charcoal Silvertone. The Rosewood laminate provides classic good looks, while the Charcoal Silvertone perfectly accents stainless steel frames. The precision CNC cut checkering patterns provide a secure grip while maintaining the grips attractive appearance. The smooth finish is often preferred for concealed carry. Available for Smith & Wesson round butt, "J", "K&L", and "N" frames

More Fingers on the Grip Means More Shots on the Target
We Beat the Competition: All Pachmayr Grip Extenders are sold in 2 Packs!

Pachmayr® Grip Extenders

Pachmayr's Grip Extenders will greatly increase your control and shooting comfort when added to popular compact and sub-compact handguns. The extensions perfectly match the shape and texture of the handgun, so they look like they are part of the pistol, rather than an add-on. Extenders are easy to install and are made of tough, high strength polymer that stands up to the roughest handling. In addition, the Extenders come in a pack of two for a price similar to others on the market that only contain one.

- Sig P365 *(Fits 10-round mags only)* . . . . . (#03897)

Due to increased magazine capacity, please check your state regulations before purchasing.

Increase the capacity of your handgun using Pachmayr® Mag Sleeves

Many popular compact handgun models will accept magazines used in the full size version of the same model, thus increasing your magazine capacity. These longer magazines will extend down below the grip frame however, making the grip uncomfortable and unsightly. The Pachmayr Mag Sleeve fills this void, providing an enhanced grip and making the longer magazine look like it belongs! The Mag Sleeve simply slides over the magazine and is secured with a set screw. Available for most popular compact and sub-compact handguns.

Price $13.98

Tactical Shotgun Grips

TacStar® took a long, hard look at tactical shotgun grips, and then re-engineered them totally. The result is the most rugged front and rear pistol grips TacStar has ever offered. These tough, one piece, reinforced polymer models also incorporate an advanced, finger groove, ergonomic design. By better fitting both of the shooters hands, these grips enhance control, operation and recoil reduction. Made in the USA, TacStar's Tactical Shotgun Grips are easy to install – the Mossberg/Maverick model even includes integral action bars. Available for 12 ga. models only listed below: Remington 870, Mossberg 500/590/600, Maverick 88.

Front Grip (Moss./Maverick) W/Action Bars . . . . . (#1081151)
Rear Grip (Mossberg/Maverick) . . . . . (#1081152)
Front Grip Remington . . . . . (#1081153)
Rear Grip Remington . . . . . (#1081154)

Tactical Grip Glove® for Mossberg Shockwave & Remington Tac-14

The Mossberg Shockwave and Remington Tac-14's have become two of the most popular weapons to be introduced in recent years. Their 14" barrels and unique birds head style pistol grip makes them fast and maneuverable, however they do also pack quite a kick. Pachmayr has created a Tactical Grip Glove developed specifically for these firearms. This slip-on grip is easy to install and offers better control as well as reducing recoil of the Shockwave and Tac-14. The grip features a single finger positioning groove, non-slip texturing and a thicker padded area to give the palm of your hand better protection from recoil.

Tactical Grip Glove . . . . . (#05103)

Universal Barrel Shroud

Our Universal Barrel Shroud fits most 12 gauge pump shotguns. It is machined from all-steel with a black oxide finish. It is 13 3/4" in length and designed with a circular friction-fit bracket at the rear and a locking clamp at the front for a recoil resistant fit on the barrel.

. . . . . (#1081171)

High Visibility Follower

The TacStar® High Visibility Follower makes it easy to confirm that a shotgun magazine is empty. Its bright orange color is easily spotted at the load port, confirming that the magazine is empty. The shape of the follower also provides improved functioning compared to factory followers and it is machined from solid aluminum for durability.

High Visibility Follower . . . . . (#1081200)

Tactical Shotgun Rail Mount

The TacStar Shotgun Rail Mount is designed to fit standard 1" diameter magazine extensions and allows for easy mounting of tactical lights and/or lasers. The mount has three standard Picatinny rails positioned 90 degrees apart which allows for plenty of options when mounting accessories to the shotgun. The mount uses an easy to install clamping system which will not mar extensions, yet is strong and secure. Picatinny rails will accept most scope/light/laser mounting rings.

Keep in mind space for a barrel/magazine clamp if used. Note: Some semi-automatic shotguns are weight sensitive and accessories adding weight may cause short cycling with some ammunition. It is recommended that you function test the shotgun after installation.

Shotgun Rail Mount Short . . . . . (#1081100)

Rail Mount

Universal

Brass Catchers

TacStar's Brass Catchers are the perfect accessory for shooters who reload. No more walking around bent over trying to find where your brass flew! The Brass Catcher with Rail Mount simply clamps to the Picatinny rail of flat top AR's. The mounting bracket is adjustable and low profile, so it can be positioned to clear optics or scopes. The heat resistant catch bag can hold up to (120) .223 cases. When you are ready to empty the bag, simply pull it off of the mounting rail and dump out the shells! The bag also can be unsnapped from its aluminum deflector plate for thorough cleaning.

Our Universal Brass Catcher has velcro straps that wrap securely around the stock of any rifle. No firearm modifications are needed. Adjustable and low profile, to clear optics or scopes. Heat resistant catch bag can hold up to (60) 223 cases. To empty, simply unzip the bottom of the bag and dump out the shells.

- **Brass Catcher with Rail Mount clamps to Picatinny rails on flat top AR's**
- **Universal Brass Catcher has Velcro straps that wrap around the stock of any rifle**
- **No Modifications needed**
- **Shell bag empties easily**
- **Low profile and adjustable**
- **Rail Mount Brasscatcher holds up to 120 .223 cases**
- **Universal Brasscatcher holds up to 60 .223 cases**
- **Heat resistant bag**

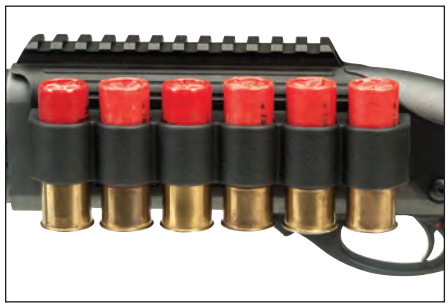
BEST SELLER!

MADE IN THE USA

The Original SideSaddle® Shotshell Carrier

The unique TacStar® SideSaddle mounts extra rounds on your shotgun in a convenient and accessible location for fast reloading. The Hytrel® polymer shell carrier is attached to an aluminum mounting plate that installs directly on the shotgun receiver. All mounting screws are included, no gunsmithing required. Installation is easy, and in most cases requires no alterations to the shotgun. Note: some field grade shotguns may require a modification to the shotgun's forend. Shotguns using the TacStar pistol grip forend do not require modification. The 4-round SideSaddle will also work smoothly with all models without modification. Works great as a separate Shotshell Storage Caddy for Duck Blind, Boat or Hunting Cabin!



Shotgun Rail Mount with SideSaddle®

Here's a simple and effective tactical upgrade for 12 gauge Remington 870, 1100 and 11-87 shotguns and now also for Mossberg 500, 590 and 930 shotguns and Benelli M2 and M4 shotguns – no gunsmith needed. Ultra-rigid, this innovative lightweight aluminum unit straddles both sides of the receiver and is crafted with a non-glare anodized finish. The top Picatinny rail can mount a variety of accessories, yet is designed to sit just high enough to allow continued use of the shotgun's bead sight. Keeping six shells in readiness, the low profile design SideSaddle incorporates TacStar's proprietary material for durability and secure shell retention.

Remington . . . . . (#1081035)
Mossberg 500, 590 . . . . . (#1081029)

TacStar 4-Shot SideSaddle®

TacStar's 4 round SideSaddle Shotshell Carrier is the perfect accessory for all your hunting shotguns. It mounts easily to the side of the receiver and requires no modifications to the shotgun. Each SideSaddle is designed to provide clearance for long forends, such as the Benelli Nova model, and come with all mounting hardware. SideSaddles keep extra shells securely in place and in the perfect location for reloading. No more digging in pockets for extra shells.

TacStar 6-Shot SideSaddle®

When combined with the TacStar® M-4 magazine extension, this 6-round delivers an awesome 13 round capacity that travels with the shotgun.

WARNING: Cancer and Reproductive Harm

Slimline SideSaddle®

Our SideSaddle line has gained a large following because of their convenient placement of shells right where you need them for a fast reload. We have now taken the SideSaddle to the next level with our streamlined version. We use a non-glare, anodized aluminum backing plate material and we have contoured the plate so that it takes up less space on the receiver and has fewer areas that could potentially snag. Additionally we have changed the shell carrier itself to our proprietary flexible synthetic rubber material, which offers durability and weather resistance as well as secure shell retention. Like the backing plate, the shell carrier also is smaller in size than our traditional SideSaddle, adding to its sleek appearance.

- **Sleek, streamlined appearance**
- **Strong, rigid, non-glare, anodized aluminum backing plate**
- **Durable, flexible synthetic rubber shell carrier with secure shell retention**
- **Reduced size and streamlined shape reduce chances of snagging**
- **Available for Remington 870/1100/11-87 and Mossberg 500/590**

Carbon Fiber AR-15 Handguards with Sight Rail

TacStar's Carbon Fiber Handguards are a rugged, highly functional addition to your AR. Carbon fiber offers an unbeatable strength to weight ratio, offering durability and toughness to go along with their light weight and good looks. Unlike Handguards made of aluminum and other materials, carbon fiber Handguards stay cool to the touch even with extensive firing. The fully free floating octagon Handguards are equipped with multiple cooling slots and accessory mounting points. The mounting points will accept any M-LOK® style mounting hardware used with accessories such as slings, bi-pods, lights or vertical grips. Additionally the Handguards are equipped with a forward mounted Picatinny rail to attach sights. The Handguard attaches to the rifle using an innovative aluminum mounting sleeve. The sleeve simply clamps over the existing barrel nut meaning no special tools are needed for installation. Handguards are available in Carbine (10"), Mid (12") and Rifle (15") lengths to cover any standard gas port location.

- **Made of durable, tough and light weight carbon fiber**
- **Free floating design**
- **Stays cool to the touch, even with extensive firing**
- **Multiple cooling slots and mounting points**
- **Accepts M-LOK® equipped mounting hardware**
- **Three lengths available, 10", 12" and 15"**
- **Equipped with Picatinny rail for sight mounting**
- **Easy installation. Barrel nut does not need to be removed**

Accepts M-LOK® equipped mounting hardware
Three lengths available, 10", 12" and 15"

TacStar® Stock Adapters

TacStar's Stock Adapters are designed to allow the use of any AR-15 type telescoping stocks and pistols grips on your shotgun. Unlike some competitive polymer adapters, TacStar's are made of a tough die cast metal alloy which not only provides greater strength, but also additional weight to reduce felt recoil. Designed to perfectly match the factory receiver contours and mount up seamlessly. The adapters are designed for proper drop to use bead or ghost ring sights. The adapters will accept any standard AR-15 grip without a beavertail, or one having a flexible rubber beavertail, such as Pachmayrs, Ergos and some Hogues. The adapter also features QD sling attachment ports on both sides. Available for Mossberg 500/590 and Remington 870 shotguns. (Does not include buffer tube or stock.)

1500 Turbo® Pro Tumbler

- ***25% greater capacity than 1200 tumbler***
- ***Bowl is equipped with spiral agitators for aggressive tumbling action***
- ***Transparent polycarbonate lid***
- ***Tight bowl/lid fit for dust free operation***
- ***In-line power switch***

The Lyman 1500 Turbo Pro Tumbler offers approximately 25% greater capacity than our popular 1200 model. This larger capacity will clean up to 500 9mm cases or 200 223 cases per cycle. The bowl features unique spiral agitators for an aggressive tumbling action. It is equipped with a transparent polycarbonate lid which tightly seals against the bowl for dust free operation, and an in-line on/off switch. A wide base with rubber feet keeps the tumbler anchored in one spot.

1500 Turbo Tumbler (#7631650) (115V) $89.95
1500 Turbo Tumbler (#7631651) (230V) $90.00

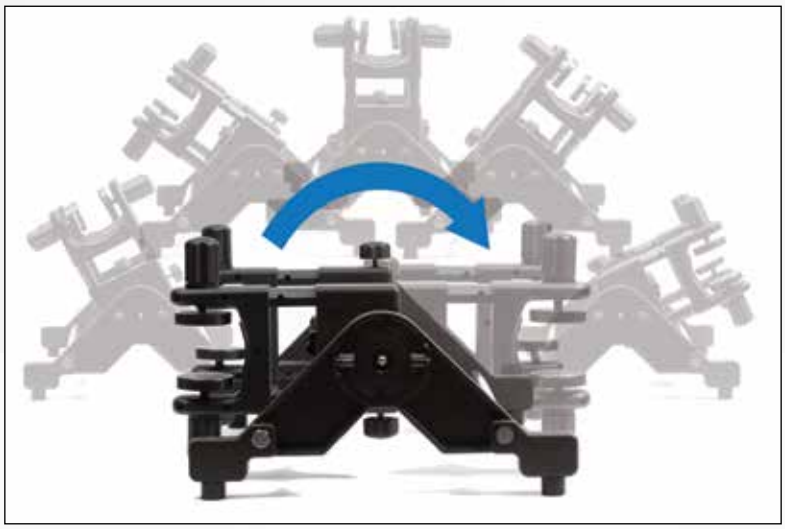
Revolution® HD Heavy Duty Gun Vise

Lyman's Revolution HD Gun Vise is just what the name implies, a 16 ½ pound heavy duty rotating vise for all your gun care needs. The Revolution HD Gun Vise starts with a sturdy aluminum frame and center beam, along with stainless steel connecting rods. These critical metal parts give the vise the added strength and stability gun owners are looking for. The vise can be rotated 180 degrees and locked in position every 6.6 degrees, which provides extreme versatility in positioning your firearm in just the right spot! The padded gun clamps offer 2" of height adjustment and can be positioned from 3" to 17" apart. The Rev HD also features adjustable feet for a stable working platform on various surfaces. Plus, the Rev HD comes with an AR magazine well support post which spreads to lock firmly into the rifle, preventing unwanted movement.

Revolution HD Gun Vise (#7832280) $249.95

- ***Rotates 180 degrees***
- ***Stainless steel connecting rods***
- ***Heavy duty aluminum frames and center beam***
- ***Padded clamps with 2" of height adjustment***
- ***Locking AR magazine well support***



Rotates 180° and locks in position every 6.6 degrees.

Accu-Prime™

- ***Smooth operating side handle with unique helix camming design***
- ***Top seating accuracy and precision due to our patented primer punch design***
- ***Fully controllable & adjustable primer depth***
- ***Includes small & large primer punches***
- ***Accepts standard shellholders***
- ***Right- or left-hand operation***

PATENTED

Our patented priming punch is unique in that the primer cup acts as a stop when it contacts the bottom surface of the cartridge case.

Lyman's Accu-Prime tool is one of the most accurate and precise priming tools available! What makes this tool so accurate is our patented adjustable priming punch. Other priming tools use the top surface of the rim to hold the case during priming, and then either use "feel" for primer depth, or a tool stop of some sort. However, even tools with a stop are susceptible to rim thickness variations, which will then transfer these variations in primer seating depth. Our patented adjustable priming punch is unique in that the primer cup acts as a stop as it contacts the bottom surface of the cartridge case. In this manner, you can precisely control the exact amount of primer depth below the bottom surface of the case.

The Accu-Prime also features a smooth working helix camming system to raise and lower the priming punch, operated by a unique side lever. Primers are placed into the priming cup by hand and then seated using the 90-degree travel side lever. The tool can be positioned for right- or left-hand operation, and works with all brands of standard shellholders.

Accu-Prime (#7770075) $69.95

US Patent #11,713,950

Accu-Prime™ Auto Load

Lyman's Accu-Prime Auto Load tool is one of the fastest and most accurate priming tools available! What makes this tool so accurate is our patented adjustable priming punch. Other priming tools use the top surface of the rim to hold the case during priming, and then either use "feel" for primer depth, or a tool stop of some sort. However, even tools with a stop are susceptible to rim thickness variations, which will then transfer these variations to primer seating depth. Our patented adjustable priming punch is unique in that it stops against the bottom surface of the cartridge case. In this manner, you can control the exact amount of primer depth below the bottom surface of the case.

Additionally, the Accu-Prime Auto-Load uses an unique linear rail system for the primer feed tubes. This produces an extremely smooth primer feed operation, and consistent primer drop.

The tool is operated by a side handle which activates our slick camming system for easy primer seating.

Works with all brands of standard shellholders.

Accu-Prime Auto Load (#7770050) $174.95

- ***Top seating accuracy and precision due to our patented primer punch design.***
- ***Fully controllable and adjustable primer depth.***
- ***Unique linear rail system to operate the primer feed tubes.***
- ***Smooth operating side handle with unique camming system.***
- ***Accepts standard shellholders.***
- ***Includes large & small primer punches***
- ***Includes large & small 100 primer pickup tubes***

Our patented priming punch is unique in that the primer cup acts as a stop when it contacts the bottom surface of the cartridge case.

TacStar American Made Modular Shotgun Extension Sets

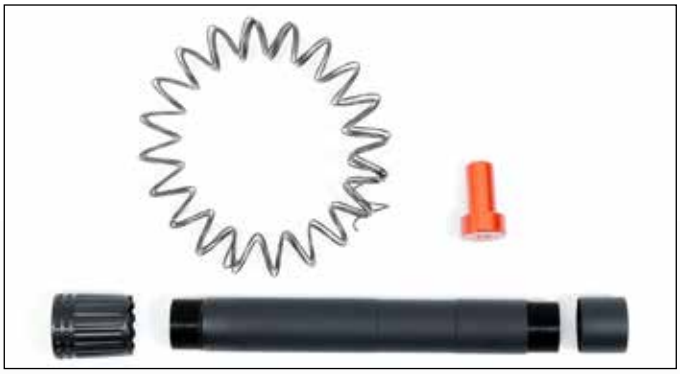
Versatility, Lightweight, Strength, Smooth Function, and Style! TacStar's new modular shotgun extensions provide all of these benefits while adding additional capacity to your shotgun. The tubes are machined from tough 6061 aluminum, anodized matte black, and include a recess for a magazine/barrel clamp.

Since both ends of the modular design tube have the same thread, it can be reversed to change the location of the recess for maximum versatility.

Extensions are available for +2, +3, and +5 rounds over the standard factory magazine capacity (using 2 ¾" shells). Each set includes a gun-specific castle nut, extension tube and tube cap, along with a magazine spring which can be cut to your desired length and our High Visibility Follower, which improves functioning and is easy to spot at the loading port. Fits Remington 870, Mossberg 590, and Winchester SXP shotguns.

Mag Ext +2 Rem. 870 (#1082231)	$69.98
Mag Ext +3 Rem. 870 (#1082232)	$69.98
Mag Ext +5 Rem. 870 (#1082234)	$74.98
Mag Ext +2 Moss. 590 (#1082236)	$69.98
Mag Ext +3 Moss. 590 (#1082237)	$69.98
Mag Ext +5 Moss. 590 (#1082239)	$74.98
Mag Ext +2 Win. SXP (#1082241)	$69.98
Mag Ext +3 Win. SXP (#1082242)	$69.98
Mag Ext +5 Win. SXP (#1082244)	$74.98

- ***Long magazine spring allows fine tuning of fit/function***
- ***Recess cut for magazine/barrel clamp (clamp not included)***
- ***Tough, Lightweight 6061 aluminum***
- ***Includes High Visibility Follower***
- ***+2, +3, and +5 round extensions***
- ***Matte black finish***



Each set includes: castle nut, extension tube and tube cap, magazine spring and High-Vis Follower.

Both ends of the modular design tube have the same thread, so it can be reversed to change the location of the recess for maximum versatility

Range and Ammo Bags

Range Bag

Our two compartment Range/Ammo Bag gives you the versatility to carry ammo, handguns, eye and ear protection, or fired brass.

It features an adjustable and removable shoulder strap as well as a carry handle. The outer bag is made of tough 600D Cordura while the two large pockets are lined with nylon ripstop fabric for added strength.

The bag is equipped with a standard size loop panel and includes our custom Lyman/Mark 7 Velcro patch with space for the shooter to identify the bag contents.

Whether as a range bag for that quick trip to the range, or as a companion ammo bag, this bag will give you the flexibility you need.

Range Bag (#7837842) $34.95
Lyman/Mark 7 Patch (#7837860) $2.50

- ***Bag Dimensions – 12" L x 6.5" W x 6" H***
- ***Two Large Storage Pockets for ammo, brass or gear***
- ***Velcro Patch – 3" x 2"***
- ***Liner – Nylon Ripstop***
- ***Outer Material – 600D Cordura***
- ***Carry Handle and Removable Shoulder Strap***

M.A.D. (Mark 7 Ammo Divider) Bags

The new Mark 7 Ammo Divider (M.A.D.) Bags provide shooters with a great way to carry ammo to the range!

Made from 600D Cordura, the bags allow for extreme packability as opposed to hard ammo cans or boxes. They are also great for holding brass after a range session, tools for zeroing rifles and handguns, tools for field maintenance, cleaning accessories, etc.

The bags feature a standard size loop panel and include our custom M.A.D. Bags Velcro patch to allow the shooter to identify the contents of the bags in the blank area on the patch.

The M.A.D. bag will comfortably hold roughly 350+ rounds of 9mm Luger and 200 rounds of .233/5.56.

M.A.D. Bag (#7837841) $14.95
M.A.D. Patch (#7837861) $2.95

- ***Bag dimensions – 8.5" x 6.5"***
- ***Holds 350+ rounds of 9mm Luger, 200 rounds of .223/5.56***
- ***Velcro Patch – 3" x 2"***
- ***YKK Zipper with extended pull***
- ***Liner – Nylon Ripstop***
- ***Outer material – 600D Cordura***
- ***Heavy duty nylon stitched***

6th Ed. Shotshell Reloading Handbook

The Newest Data
With one of the largest data sections ever, this new edition covers most current hulls from Cheddite, Federal, Fiocchi, Remington and Winchester and well as primers from Cheddite, CCI, Federal, Fiocchi, Remington and Winchester. We also cover all popular powders from Accurate, Alliant, Hodgdon, IMR, Ramshot, VihtaVuori and Winchester.

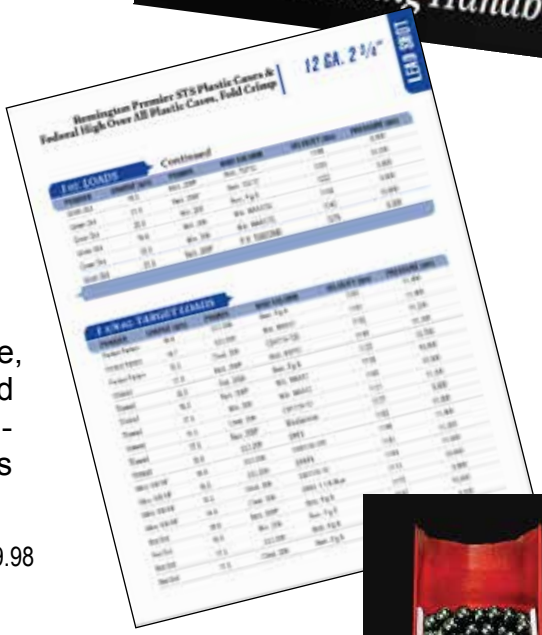
New Wads
For the first time, this edition gives heavy coverage to Claybuster and Downrange wads, in addition to Ballistic Products and Precision Reloading.

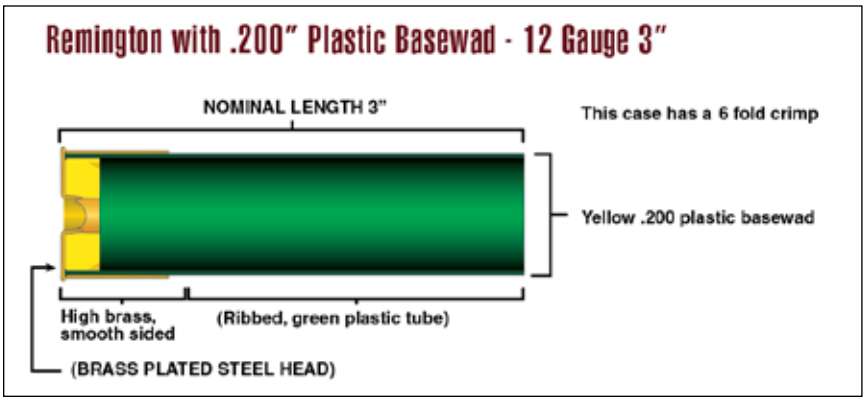
Non-Toxic Data Section
Along with complete instructions on loading non-toxic shot, the handbook has extensive data for steel, bismuth and Hevi-Shot.

Full Color
For the first time, our Shotshell Handbook is produced in full color! Additionally, the data sections for the various shot types are color coded and include a “tab” format, making it easy to find the data you are looking for!

Case Identification Section
As in previous editions, we include actual size, full color, cut-away drawings showing detailed cross-sections of the cases used in this handbook. This makes it easy to match your cases with the correct data.

Shotshell Handbook 6th Edition (#9827115) $29.98





Remington with .200" Plastic Basewad - 12 Gauge 3"
NOMINAL LENGTH 3"
This case has a 6 fold crimp
Yellow .200 plastic basewad
High brass, smooth sided
(Ribbed, green plastic tube)
(BRASS PLATED STEEL HEAD)

Press Accessories

Press Roller Handles

For Lyman All-American and Victory Presses, RCBS Rock Chucker & Rock Chucker Supreme

Greater comfort equals greater production! Increase your reloading comfort and production with the addition of our Roller Press Handle. The handle features a smooth operating aluminum roller grip which keeps your hand in the same position throughout the press stroke, greatly increasing operating comfort. The steel handle is shaped to fit closely to the press frame for improved ergonomics. The handle installs easily, the same as the OEM handle.

- ***Increase comfort and production***
- ***Decrease fatigue***
- ***Smooth operating aluminum roller grip***
- ***Available for Lyman All-American 8 turret, Lyman Victory, RCBS Rockchucker, and RCBS Rockchucker Supreme.***

Lyman All-American 8/Victory Press Handle (#7726760) $64.95
RCBS Rocker Chucker Press Handle (#7726761). $64.95
RCBS Rocker Chucker Supreme Press Handle (#7726762) . . $64.95

Brass Smith Die Wrench

Lyman's Brass Smith Die Wrench fits all Lyman die nuts, including die body, expander plug, seating screw, and decapping rod lock nuts. This includes the 1" lock nuts used on our Pro dies as well as on Dillon dies. Made of rust resistant stainless steel, the closed end design offers added strength with thinner side walls allowing easier fit between dies. The 5 marked openings accommodate the following size nuts:
1 3/16" – Lyman & RCBS hex style die lock nuts
1" – Lyman Pro and Dillon hex die lock nuts
3/4" – Lyman expander plug lock nuts
5/8" – Lyman seating screw lock nuts
3/8" – Lyman decapping rod lock nuts

Brass Smith Die Wrench (#7631250). $12.95

Turret Stand

Lyman's Turret Stand keeps your loading bench neat and organized. The sturdy stand will hold up to 3 turrets filled with dies, making it easy to swap calibers. The stand has a wide base for stability and uses PVC sleeves to separate the turrets on the steel center post. The stand will work with Lyman All-American 8 plus Lyman T-Mag and T-Mag II turrets. It will also work with Redding T-7 turrets.

- ***Works with Lyman All-American 8, Lyman T-Mag and T-Mag II turrets as well as Redding T-7***
- ***Holds up to 3 turrets with dies***
- ***Wide stable base***

Turret Stand (#7726780) $49.95

Heritage Tools™ by Lyman®

The Heritage series of tools incorporates Lyman's nearly 150 years of experience producing quality equipment and tools for sportsmen. The drivers are made of tough chrome vanadium steel, and equipped with comfortable, textured non-slip grips. The straight bits have hollow ground tips for proper, non-slip fit in slotted screws. All are packaged in a sturdy organizer stand which can either be placed on your bench or be hung on a wall or pegboard.

12 Piece Screwdriver Set

Our 12 Piece Heritage Screwdriver Set includes all the basic drivers that you'll need your firearm, outdoor sports, household, and general maintenance jobs. The set includes 5 slotted tip drivers, 5 Phillips drivers, and 2 Torx drivers.

12 Piece Screwdriver Set (#7031260) $22.50

- ***Made from tough chrome vanadium steel***
- ***Hollow ground tips for proper fit & control***
- ***Drivers for Slotted, Phillips, and Torx***
- ***Comfortable, non-slip, textured handles***
- ***Sturdy organizer stand***

47 Piece Screwdriver Set

Our 47 Piece Heritage Screwdriver Set has all the bits needed to tackle most of your firearm, outdoor sports, household, and general maintenance jobs. There are 9 fixed blade slotted tip drivers, 9 Torx drivers, and 8 Phillips drivers. Additionally, there is a driver to accept replaceable bits. Replaceable bits include 7 Torx bits, 6 hex bits, 4 slotted bits, and 3 Phillips bits.

47 Piece Screwdriver Set (#7031262) $39.95

- ***Made from tough chrome vanadium steel***
- ***Hollow ground tips for proper fit and control***
- ***Drivers for Slotted, Phillips, Torx, and Hex***
- ***Comfortable, non-slip, textured handles***
- ***Sturdy organizer stand***

Heritage Tools™ by Lyman®

- ***SAE Fractional Hex Wrenches include: 3/32”, 7/64”, 1/8”, 9/64”, 5/32”, 3/16”, 7/32”, 1/4”, 5/16”, 3/8”***
- ***Metric Hex Wrenches include: 1.5mm, 2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm, 7mm, 8mm, 10mm***
- ***Sturdy Organizer Stand can be placed on bench or hung on a wall or pegboard***
- ***Torx Wrenches include: T7, T8, T9, T10, T15, T20, T25, T27, T30, T40***
- ***Hex Wrenches have ball and standard ends***
- ***Comfortable T-Handle Grip***

30 Piece T-Handle Set

The 30 Piece Heritage T-Handle Hex and Torx Set includes all the wrenches that you’ll need for your firearm, outdoor sports, household, and general maintenance jobs. The T-Handle wrenches are made of tough chrome vanadium steel and feature a comfortable grip that gives you all the torque you’ll need to break free stubborn bolts.

Hex wrenches feature a long ball end and a stubby standard hex end and come in both inch and metric sizes. Torx wrenches also have long ends for those hard-to-reach bolts and short ends when more leverage is needed.

The set includes 10 SAE fractional hex sizes from 3/32” to 3/8”, 10 metric hex wrenches from 1.5mm to 10mm, and 10 Torx wrenches from T7 to T40. All are packaged in a sturdy organizer stand which can either be placed on your bench or be hung on a wall or pegboard.

30 Piece Screwdriver Set (#7031263) $69.95

Punch Sets

Armorer's 18 Piece Hex Punch Set

This set contains a full selection of top quality steel punches for all your gunsmithing needs. The custom walnut bench block is engraved with each punch size to keep your punches organized for quick access.

Essential™ 7 Piece Hex Punch Set

Ideal tools for removing hollow, split roll pins, these punches feature a special round nose design to allow proper alignment of the punch in the roll pin to prevent damage to fine mechanisms such a trigger group parts.

Essential 7 Piece Hex Punch Set (#7031275) $12.95

- ***Tough Hardened Steel Construction***

Set Includes:

- ***1 Center Punch***
- ***1 Starter Punch***
- ***Pin Punches - 1/16, 5/64, 3/32, 1/8, 5/32***

Gunsmithing Tools

The Essential™ Armorer's Mat

Protect your gun and your workbench. Work like a pro on your Lyman Gun Mat. The firm, yet cushioned surface is perfect for assembling and disassembling firearms, (or lots of other hobbies!) for cleaning, or maintenance and repair. The molded compartments contain spills and keep small parts out of the way of the main work area but still handy and organized. The mats are chemical resistant and clean easily with soap and water.

Essential Armorer's Mat (#04074) $24.98

- ***Armorer's Mat measures 16" x 19"***
- ***Chemical Resistant***
- ***Made from synthetic rubber for a non-slip surface***
- ***Protects your gun's finish and your bench's finish***
- ***Molded-in storage compartments keep parts secured & organized***

X-Block - Gunsmith Bench Block

Having the right tool for the job makes any gunsmithing project so much easier! Without the right tool, you may damage fine finishes or break parts. The X-Block is the right tool for anyone driving pins out of firearms. It has all the features to get the job done smoothly and professionally. The X-Block has both a "V" slot and a rounded slot running across the face of the block to support a variety of barrels and slides. The block is made of a tough, non-marring, polymer, and its large 5" diameter provides a stable base with plenty of support and working surface. The block has multiple holes to take on most any project, as well as a molded in magnet on the back side of the block to catch pins and other small parts as they drop out.

X-Block (#04079) $17.50

- ***Large 5" diameter***
- ***Magnet molded into base to catch pins or small parts***
- ***Made of tough, non-marring polymer***
- ***"V" slot & rounded slot run across block face to fit most every need***
- ***Large work surface for most any job***

Lyman Pro Gauges & Ammo Checkers

Pro Headspace Gauges

Lyman Pro Headspace Gauges have more features than any headspace gauge on the market! Inspired by our Lyman Pro Die Sets, the gauges are precision machined from corrosion resistant stainless steel for a long rust-free life. The outside flats prevent rolling, and the o-rings provide a non-slip grip. Pro Headspace gauges check maximum and minimum cartridge headspace as well as maximum case length. Headspace gauges are recommended when setting up sizing dies for any bottle neck cartridge.

223 Rem	(#7705100)

Borecam® 2.0

Wireless WiFi operation and easy-to-use apps for iOS and Android phones or tablets.

Borecam® 2.0 Wireless Digital Borescope

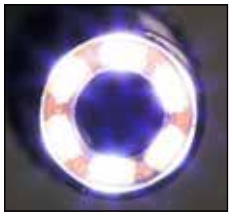
Lyman's Borecam 2.0 borescope takes barrel inspection to a whole new level! The wireless Borecam 2.0 produces its own WiFi signal which sends super clean and detailed images directly to your phone. No wires or monitors to get in the way during use. Carefully inspect your bores for wear, throat erosion, tool marks and other rifling damage, as well as copper or lead fouling.

The Borecam 2.0 will fit 22 caliber and larger barrels and is equipped with a 26" rod. In addition to photos, it also takes sharp, clear videos. The easy-to-use app makes storing and retrieving photos and video simple. Apps are available for iOS and Android phones and tablets.

Borecam includes: Rod with mounted camera, 5 interchangeable 90° Mirrors for various calibers, and USB cord for charging. *NOTE: Unit is rechargeable and is charged by plugging into a USB port on a PC or standard phone charger (not included).*

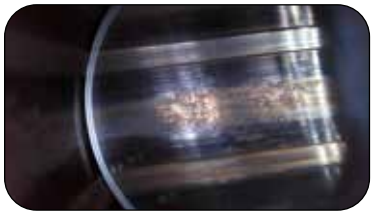
Borecam 2.0 (#04070) $199.95

Unit is rechargeable and is charged by plugging into a USB port on a PC or standard phone charger (not included).



1920 x 1080 resolution micro camera technology and bright lighting combine to provide crisp clear photos and videos.

Scope fits 22 caliber and larger barrels and rod is 26" long to provide a view of the entire inside of the barrel.



Inspect your barrel for wear, throat erosion, tool marks, rifling, chamber damage and fouling.

Tac-Mat™ Long Range Shooting Mats

Tac-Mat™ Long Range Shooting Mats

Lyman's Long Range Shooting Mats are perfect for long range shooting, target or tactical shooting, and varmint hunting. They offer a large footprint that will work well for even the tallest shooter, yet they roll up to a compact, easy to transport size. These comfortable mats will protect you from dirt, rocks, wet surfaces, insects, hot truck beds, gravel or pavement. 6' x 3' (Tail adds 6")

Mats are available in two versions, a basic design in either black or FDE; or a heavy-duty (HD) version in black or FDE. The basic model features 600D construction, with a carry handle and shoulder strap. The shoulder strap can also be used as a bipod stop. The HD version features 1000D construction, elbow pads and a built-in bipod stop, as well as a carry handle and shoulder strap.

Long Range Shooting Mat Black (#7837850). $99.95
Long Range Shooting Mat FDE (#7837851) $99.95
HD Long Range Shooting Mat Black (#7837852) $149.95
NEW HD Long Range Shooting Mat FDE (#7837853) $149.95

New from Pachmayr®

Show Your Support of the Thin Red and Blue Lines that Keep Us Safe

For a limited time only, Pachmayr is offering two of our most popular recoil pads in special custom style in support of law enforcement and firefighters everywhere. The T550 Trap pad is highlighted with the “Thin Red Line of Courage” and features a concave face and Double X sidecore design for comfort. The F325 Premium Rifle and Shotgun pad displays the “Thin Blue Line” along with its classic style and excellent recoil absorbing qualities. Outfit your favorite gun in support of those that defend us.

F325 Field Blue Line Recoil Pad (#00012). $41.50
T550 Red Line Trap Pad (#00815). $46.98

AR-15 Premium Rifle Grip

Pachmayr listened to what our customers and MSR shooters have been looking for in an AR15 Grip. We took this input and redesigned our AR15 Grip with all those features, including a hand-filling yet slim shape, shallow finger grooves for fast grip acquisition, and proper hand location for easy trigger reach and control. The grip has a synthetic rubber over-mold construction, along with a good looking yet non-slip texture. The grip is impervious to gun oils or solvents and will stand up to rough use.

AR-15 Premium Rifle Grip (#02466). $23.98
